

Euronet Named Second Fastest Growing Technology Company by Deloitte & Touche in North America

Company's 66,790 Percent Growth Rate is Second Highest in North American Technology Industry

LEAWOOD, Kan., November 16, 2000 – Euronet Worldwide (NASDAQ: EEFT), a global provider of secure electronic financial transactions, announced today that it ranks second overall on the 2000 Deloitte & Touche Technology Fast 500, a list of the 500 fastest growing technology companies in North America. Euronet won the honor based on its five-year revenue growth of 66,790 percent.

"We've worked very hard over the past five years to establish Euronet as the standard for secure electronic financial transactions in Europe. From that foundation, we're now building a reputation in the States – and globally – as the premier provider of new payment technologies and personal financial freedom," said Euronet CEO Michael Brown. "To be named the second fastest-growing technology company in North America shows just how far we've come in our mission."

Euronet's applications enable banks, financial institutions and wireless operators to provide their clientele with the ability to access personal financial information and perform secure financial transactions - any time, any place. The company's client roster includes CitiBank, ING, GE Capital, ABN-AMRO, Deutsche Bank, and EuroTel. These and other global leaders rely on Euronet to deliver ground-breaking convenience in electronic financial transactions via a multitude of consumer touch points including phone, automated teller machines (ATMs), point-of-service terminals, the Internet and mobile devices.

The Technology Fast 500 is compiled from Deloitte & Touche's 22 regional U.S. and Canadian Fast 50 programs, nominations submitted directly to the Technology Fast 500 editors and public company database research.

"These fast-growth technology companies boldly invent new technologies and business strategies, and their advancements help drive entire industries to the next level," said Mark Evans, managing director of Deloitte & Touche's Technology and Communications Group in San Jose. "We applaud their vision, efforts and tenacity to reinvent technology and create new business models."
