Euronet Worldwide Reports Third Quarter 2019 Financial Results

LEAWOOD, KANSAS, USA - October 22, 2019 - Euronet Worldwide, Inc. ("Euronet" or the "Company") (NASDAQ: EEFT), a leading electronic payments provider, reports third quarter 2019 financial results.

Euronet reports the following consolidated results for the third quarter 2019 compared with the same period of 2018:

- Revenues of \$787.0 million, a 10% increase from \$714.5 million (14% increase on a constant currency⁽¹⁾ basis).
- Operating income of \$194.0 million, a 29% increase from \$150.9 million (34% increase on a constant currency basis).
- Adjusted EBITDA⁽²⁾ of \$227.3 million, a 25% increase from \$181.4 million (30% increase on a constant currency basis).
- Net income attributable to Euronet of \$137.6 million or \$2.46 diluted earnings per share, compared with net income of \$102.7 million or \$1.89 diluted earnings per share.
- Adjusted earnings per share⁽³⁾ of \$2.84, a 31% increase from \$2.16.
- Transactions of 1.23 billion, a 21% increase from 1.02 billion.

"We delivered a strong third quarter with double-digit growth across all of our consolidated metrics -- highlighted by adjusted earnings per share of \$2.84, a 31% year-over-year increase, and the sixth consecutive quarter we have delivered double-digit adjusted EPS growth," stated Michael J. Brown, Euronet's Chairman and Chief Executive Officer. "This strong result was made possible by revenue and operating income contributions from all three segments, together with certain income tax benefits. We are particularly pleased with the strength of the revenue growth, which would have been between \$15 and \$20 million higher had foreign currencies not depreciated against the U.S. dollar since the beginning of the year. EFT delivered strong double-digit growth across all metrics driven by their continued investment in ATM and product expansion together with the global expansion of Visa DCC. epay's double-digit operating income growth was the result of the continued expansion of digital media products. Money Transfer delivered solid results with continued success in both the physical and digital channels."

See the reconciliation of non-GAAP items in the attached financial schedules.

Segment and Other Results

The EFT Processing Segment reports the following results for the third quarter 2019 compared with the same period or date in 2018:

- Revenues of \$316.2 million, a 21% increase from \$261.7 million (26% increase on a constant currency basis).
- Operating income of \$150.9 million, a 37% increase from \$110.4 million (42% increase on a constant currency basis).
- Adjusted EBITDA of \$168.9 million, a 33% increase from \$127.1 million (38% increase on a constant currency basis).

- Transactions of 800 million, a 13% increase from 711 million.
- Operated 47,209 ATMs as of September 30, 2019, a 13% increase from 41,902.

Double-digit constant currency revenue, operating income and adjusted EBITDA growth was largely the result of a 13% year-over-year increase in active ATMs, a 13% increase in transactions, and the expansion of Visa dynamic currency conversion (DCC) to worldwide ATM cash withdrawals. The increase in transactions was primarily from growth in Europe and Asia - including an increase in traditional cash withdrawals as well as the number of value-added transactions, such as DCC, domestic and international surcharge, and foreign currency dispensing transactions - on both ATMs and point-of-sale terminals.

Year-over-year ATM growth is the result of more than 6,800 new high-value ATM deployments in Europe and Asia, including approximately 2,500 outsourcing ATMs in Asia, and 170 more low-margin ATMs in India, partially offset by de-installation of approximately 1,300 unprofitable ATMs at YourCash and approximately 370 more winterized machines than the prior year.

The epay Segment reports the following results for the third quarter 2019 compared with the same period or date in 2018:

- Revenues of \$191.1 million, a 3% increase from \$185.4 million (7% increase on a constant currency basis).
- Operating income of \$20.1 million, a 23% increase from \$16.4 million (27% increase on a constant currency basis).
- Adjusted EBITDA of \$21.7 million, a 19% increase from \$18.3 million (23% increase on a constant currency basis).
- Transactions of 398 million, a 40% increase from 284 million.
- Point-of-sale ("POS") terminals of approximately 710,000 as of September 30, 2019, a 7% increase from approximately 663,000.
- Retailer locations of approximately 329,000 as of September 30, 2019, a 5% increase from approximately 313,000.

epay constant currency revenue, operating income and adjusted EBITDA growth was primarily from continued digital media growth.

Transaction growth was the result of increases across Europe and strong contributions from India, which included a large volume of low-margin mobile top-up transactions.

epay terminal and location counts for the prior period have been restated to conform with the current presentation which eliminates intrasegment counts.

The Money Transfer Segment reports the following results for the third quarter 2019 compared with the same period or date in 2018:

- Revenues of \$280.8 million, a 5% increase from \$268.4 million (7% increase on a constant currency basis).
- Operating income of \$35.6 million, a 4% increase from \$34.3 million (6% increase on a constant currency basis).
- Adjusted EBITDA of \$43.7 million, a 4% increase from \$42.2 million (6% increase on a constant currency basis).
- Total transactions of 29.3 million, a 5% increase from 27.8 million.
- Network locations of approximately 389,000 as of September 30, 2019, an 8% increase from approximately 361,000.

Constant currency revenue, operating income and adjusted EBITDA growth was driven by strong double-digit contributions from U.S. outbound and international originated remittances, partially offset by limited growth from the xe business stemming from Brexit uncertainties and the previously announced decline in U.S. domestic transfers as a result of additional identification requirements on domestic transactions.

Money transfers grew 5% and non-transfer transactions, such as currency exchange and check cashing, grew 6%, resulting in total transaction growth of 5%.

Corporate and Other reports \$12.6 million of expense for the third quarter 2019 compared with \$10.2 million for the third quarter 2018. The increase in corporate expense is largely the result of higher short-term and long-term incentive compensation based on Company performance.

Balance Sheet and Financial Position

Unrestricted cash on hand was \$1.73 billion as of September 30, 2019, compared to \$1.56 billion as of June 30, 2019. The increase in cash resulted from cash generated from operations and settlement timing in the business, partially offset by approximately \$40 million in share repurchases in the third quarter.

Total indebtedness was \$1.10 billion as of September 30, 2019, compared to \$1.14 billion as of June 30, 2019. The decrease in debt was primarily from the impact of foreign currency translation on the Company's Euro-denominated debt.

Effective January 1, 2019, the Company adopted Accounting Standards Codification No. 842 ("ASC 842") to record operating leases on its consolidated balance sheet. As of September 30, 2019, the Company reported \$361.7 million in net Right of Use Lease Assets with a similar amount recorded in Operating Lease Liabilities, both current and long-term. There was no impact on the consolidated statement of operations.

Guidance

The Company currently expects adjusted earnings per share for the fourth quarter 2019, assuming foreign currency exchange rates remain stable through the end of the quarter, to be approximately \$1.61.

Non-GAAP Measures

In addition to the results presented in accordance with U.S. GAAP, the Company presents non-GAAP financial measures, such as constant currency financial measures, adjusted EBITDA and adjusted earnings per share. These measures should be used in addition to, and not a substitute for, revenues, net income, operating income and earnings per share computed in accordance with U.S. GAAP. We believe that these non-GAAP measures provide useful information to investors regarding the Company's performance and overall results of operations. These non-GAAP measures are also an integral part of the Company's internal reporting and performance assessment for executives and senior management. The non-GAAP measures used by the Company may not be comparable to similarly titled non-GAAP measures used by other companies. The attached schedules provide a full reconciliation of these non-GAAP financial measures to their most directly comparable U.S. GAAP financial measure.

The Company does not provide a reconciliation of its forward-looking non-GAAP measures to GAAP due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for GAAP and the related GAAP to non-GAAP reconciliation, including adjustments that would be necessary for currency exchange rate fluctuations and other charges reflected in the Company's reconciliation of historic numbers, the amount of which, based on historical experience, could be significant.

- ⁽¹⁾ Constant currency financial measures are computed as if foreign currency exchange rates did not change from the prior period. This information is provided to illustrate the impact of changes in foreign currency exchange rates on the Company's results when compared to the prior period.
- ⁽²⁾ Adjusted EBITDA is defined as net income excluding, to the extent incurred in the period, interest, income tax expense, depreciation, amortization, share-based compensation and other non-operating or non-recurring items that are considered expenses or income under U.S. GAAP. Adjusted EBITDA represents a performance measure and is not intended to represent a liquidity measure.
- (3) Adjusted earnings per share is defined as diluted U.S. GAAP earnings per share excluding, to the extent incurred in the period, the tax-effected impacts of: a) foreign currency exchange gains or losses, b) goodwill and intangible

asset impairment charges, c) gains or losses from the early retirement of debt, d) share-based compensation, e) acquired intangible asset amortization, f) non-cash interest expense, g) non-cash income tax expense, and h) other non-operating or non-recurring items. Adjusted earnings per share represents a performance measure and is not intended to represent a liquidity measure.

Conference Call and Slide Presentation

Euronet Worldwide will host an analyst conference call on October 23, 2019, at 9:00 a.m. Eastern Time to discuss these results. The call may also include discussion of Company developments, forward-looking information and other material information about business and financial matters. To listen to the call via telephone, dial 877-303-6313 (USA) or +1-631-813-4734 (outside the USA). The conference call will also be available via webcast at http://ir.euronetworldwide.com. Participants should go to the website at least five minutes prior to the scheduled start time of the event to register. A slideshow will be included in the webcast.

A webcast replay will be available beginning approximately one hour after the event at http://ir.euronetworldwide.com and will remain available for one year.

About Euronet Worldwide, Inc.

Euronet Worldwide is an industry leader in processing secure electronic financial transactions. The Company offers payment and transaction processing solutions to financial institutions, retailers, service providers and individual consumers. These services include comprehensive ATM, POS and card outsourcing services, card issuing and merchant acquiring services, software solutions, cash-based and online-initiated consumer-to-consumer and business-to-business money transfer services, and electronic distribution of digital media and prepaid mobile phone time.

Euronet's global payment network is extensive - including 47,209 ATMs, approximately 305,000 EFT POS terminals and a growing portfolio of outsourced debit and credit card services which are under management in 54 countries; card software solutions; a prepaid processing network of approximately 710,000 POS terminals at approximately 329,000 retailer locations in 52 countries; and a global money transfer network of approximately 389,000 locations serving 161 countries. With corporate headquarters in Leawood, Kansas, USA, and 65 worldwide offices, Euronet serves clients in approximately 170 countries. For more information, please visit the Company's website at www.euronetworldwide.com.

Statements contained in this news release that concern Euronet's or its management's intentions, expectations, or predictions of future performance, are forward-looking statements. Euronet's actual results may vary materially from those anticipated in such forward-looking statements as a result of a number of factors, including: conditions in world financial markets and general economic conditions, including the effects in Europe of the U.K.'s departure from the E.U. and economic conditions in specific countries and regions; technological developments affecting the market for our products and services; our ability to successfully introduce new products and services; foreign currency exchange rate fluctuations; the effects of any breach of our computer systems or those of our customers or vendors, including our financial processing networks or those of other third parties; interruptions in any of our systems or those of our vendors or other third parties; our ability to renew existing contracts at profitable rates; changes in fees payable for transactions performed for cards bearing international logos or over switching networks such as card transactions on ATMs; Visa's rule change to allow our ATMs to provide DCC beginning mid-April 2019; our ability to comply with increasingly stringent regulatory requirements, including anti-money laundering, anti-terrorism, anti-bribery, consumer and data protection and the European Union's General Data Privacy Regulation and Revised Payment Service Directive requirements; changes in laws and regulations affecting our business, including tax and immigration laws and any laws regulating payments, including DCC transactions; changes in our relationships with, or in fees charged by, our business partners; competition; the outcome of claims and other loss contingencies affecting Euronet; the cost of borrowing, availability of credit and terms of and compliance with debt covenants; and renewal of sources of funding as they expire and the availability of replacement funding. These risks and other risks are described in the Company's filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Copies of these filings may be obtained via the SEC's Edgar website or by contacting the Company. Any forward-looking statements made in this release speak only as of the date of this release. Except as may be required by law, Euronet does not intend to update these forward-looking statements
