EURONET WORLDWIDE, INC. AND SUBSIDIARIES
NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(1) GENERAL

Organization

Euronet Worldwide, Inc. and its subsidiaries (the “Company” or “Euronet”) is an industry leader in processing secure electronic financial transactions in three principal business segments. Euronet’s Prepaid Processing Segment is one of the world’s largest providers of “top-up” services for prepaid products, primarily prepaid mobile airtime, distributing these products in Europe, the Middle East, Asia Pacific and North America. The EFT Processing Segment provides end-to-end solutions relating to operations of automated teller machine (“ATM”) and point-of-sale (“POS”) networks, and debit and credit card processing in Europe, the Middle East and Asia Pacific. The Money Transfer Segment, comprised primarily of the Company’s RIA Envia, Inc. (“RIA”) subsidiary and its operating subsidiaries, is the third-largest global money transfer company, based upon revenues and volumes, and provides services through a sending network of agents and Company-owned stores primarily in North America and Europe, disbursing money transfers through a worldwide payer network.

Basis of presentation

The accompanying unaudited consolidated financial statements have been prepared from the records of the Company, in conformity with accounting principles generally accepted in the U.S. (“U.S. GAAP”) and pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). In the opinion of management, such unaudited consolidated financial statements contain all adjustments (consisting of normal interim closing procedures) necessary to present fairly the financial position of the Company as of March 31, 2009, and the results of its operations and cash flows for the three-month periods ended March 31, 2009 and 2008.

The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements of Euronet for the year ended December 31, 2008, including the notes thereto, set forth in the Company’s 2008 Annual Report on Form 10-K.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The results of operations for the three-month period ended March 31, 2009 are not necessarily indicative of the results to be expected for the full year ending December 31, 2009. Certain amounts in the prior year have been reclassified to conform to current period presentation.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES

Convertible debentures

Effective January 1, 2009, the Company adopted the provisions of Financial Accounting Standards Board (“FASB”) Staff Position (“FSP”) APB 14-1, “Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement).” FSP APB 14-1 requires the proceeds from the issuance of such convertible debt instruments to be allocated between debt and equity components so that debt is discounted to reflect the Company’s nonconvertible debt borrowing rate. The debt discount is amortized over the period the convertible debt is expected to be outstanding as additional non-cash interest expense. This treatment impacts the accounting associated with the Company’s convertible debentures. The Company’s Unaudited Consolidated Balance Sheets, Statements of Operations, Statements of Comprehensive Income (Loss) and Statements of Cash Flows have been adjusted to reflect the retrospective application of the provisions to prior periods.

Noncontrolling interests

Effective January 1, 2009, the Company adopted the provision of FASB Statement of Financial Accounting Standards (“SFAS”) No. 160, “Noncontrolling Interests in Consolidated Financial Statements.” SFAS No. 160 requires noncontrolling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. The presentation of the Company’s Unaudited Consolidated Balance Sheets, Statements of Operations, Statements of Comprehensive Income (Loss) and Statements of Cash Flows has been adjusted to reflect the retrospective application of the provisions to prior periods.

Business combinations

Effective January 1, 2009, the Company adopted the provision of SFAS No. 141(R), “Business Combinations,” which is a revision of SFAS No. 141, “Business Combinations.” SFAS No. 141(R) applies to all business combinations and requires most identifiable assets,

[Table of Contents](#)

liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at “full fair value” at the acquisition date. SFAS No. 141(R) also requires transaction-related costs to be expensed in the period incurred, rather than capitalizing these costs as a component of the respective purchase price.

Accounting for derivative instruments and hedging activities

The Company accounts for derivative instruments and hedging activities in accordance with SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities,” as amended, which requires that all derivative instruments be recognized as either assets or liabilities on the balance sheet at fair value. During the second quarter 2007, the Company entered into derivative instruments to manage exposure to interest rate risk that are considered cash flow hedges under the provisions of SFAS No. 133. To qualify for hedge accounting under SFAS No. 133, the details for the hedging relationship must be formally documented at the inception of the arrangement, including the Company’s hedging strategy, risk management objective, the specific risk being hedged, the derivative instrument being used, the item being hedged, an assessment of hedge effectiveness and how effectiveness will continue to be assessed and measured. For the effective portion of a cash flow hedge, changes in the value of the hedge instrument are recorded temporarily in stockholders’ equity and the Unaudited Consolidated Statements of Comprehensive Income (Loss) as a component of other comprehensive income and then recognized as an adjustment to interest expense over the term of the hedging instrument.

In the Money Transfer Segment, the Company enters into foreign currency forward contracts to offset foreign currency exposure related to the notional value of money transfer transactions collected in currencies other than the U.S. dollar. These forward contracts are considered derivative instruments under the provisions of SFAS No. 133, however, the Company does not designate such instruments as hedges. Accordingly, changes in the value of these contracts are recognized immediately as a component of foreign currency exchange gain, net in the Unaudited Consolidated Statements of Operations. The impact of changes in value of these forward contracts, together with the impact of the change in value of the related foreign currency denominated receivable, on the Company’s Unaudited Consolidated Statements of Operations is not significant.

Cash flows resulting from derivative instruments are classified as cash flows from operating activities in the Company’s Unaudited Consolidated Statements of Cash Flows. The Company enters into derivative instruments with financial institutions it believes to be highly credit-worthy and does not use derivative instruments for trading or speculative purposes.

Additionally, effective January 1, 2009, the Company adopted the provisions of SFAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities” which requires an entity to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. See Note 7, Derivative Instruments and Hedging Activities, for these disclosures and a further discussion of derivative instruments.

Fair value measurements

Effective January 1, 2008, the Company adopted the provisions of SFAS No. 157, “Fair Value Measurements” for financial assets and liabilities. This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The Statement applies whenever other accounting pronouncements require or permit fair value measurements. Accordingly, this Statement does not require any new fair value measurements. Additionally, FSP FAS 157-2, “Effective Date of FASB Statement No. 157,” delayed the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008 for certain nonfinancial assets and liabilities. Beginning January 1, 2009, the Company adopted the provisions for those nonfinancial assets and liabilities, which include those measured at fair value in goodwill impairment testing, indefinite-lived intangible assets measured at fair value for impairment assessment, nonfinancial long-lived assets measured at fair value for impairment assessment and investments in unconsolidated subsidiaries. See Note 9, Fair Value Measurements, for the required fair value disclosures.

Money transfer settlement obligations

Money transfer settlement obligations are recorded in accrued expenses and other current liabilities on the Company’s Unaudited Consolidated Balance Sheets and consist of amounts owed by Euronet to money transfer recipients. As of March 31, 2009, the Company’s money transfer settlement obligations were \$31.3 million.

Investment in MoneyGram International, Inc.

The Company’s investment in MoneyGram International, Inc. (“MoneyGram”) was classified as available-for-sale as of December 31, 2007 and was recorded in other assets on the Company’s Consolidated Balance Sheet. During the first quarter 2008, the Company decided not to pursue the acquisition of MoneyGram. Also, during the first quarter 2008, the value of the Company’s investment in MoneyGram declined and the Company determined the decline to be other than temporary. Accordingly, the Company recognized \$17.5 million in impairment losses associated with the investment and reversed the \$0.6 million gain recorded as of December 31, 2007 in accumulated other comprehensive income. The investment was included in other current assets on the Company’s Unaudited Consolidated Balance

[Table of Contents](#)

Sheets as of March 31, 2009 and December 31, 2008. During the first quarter 2008, the Company also recorded acquisition related expenses totaling \$3.0 million, which are included in selling, general and administrative expenses.

Recent accounting pronouncements

In April 2009, the FASB issued FSP FAS 141(R)-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies." FSP FAS 141(R)-1 amends the requirements to measure contingencies acquired in a business combination at fair value, requiring that a contingency acquired in a business combination be initially measured at fair value on the acquisition date if fair value can be determined during the measurement period. Acquired contingencies whose fair value cannot be determined during the measurement period would be recognized if it is probable that an asset existed or liability had been incurred at the acquisition date and the amount for that asset or liability can be reasonably estimated. FSP FAS 141(R)-1 is effective for Euronet beginning January 1, 2009, concurrent with the adoption of SFAS No. 141(R), and it did not have a material impact on the Consolidated Financial Statements.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments," which requires the annual fair value disclosures about financial instruments within the scope of FAS 107 to also be made in interim financial statements. FSP FAS 107-1 and APB 28-1 is effective for Euronet for the quarterly reporting period ending June 30, 2009. The Company's adoption of FSP FAS 107-1 and APB 28-1 is not expected to have a material impact on the Consolidated Financial Statements.

(3) EARNINGS PER SHARE

Basic earnings per share has been computed by dividing earnings available to common stockholders by the weighted average number of common shares outstanding during the respective period. Diluted earnings per share has been computed by dividing earnings available to common stockholders by the weighted-average shares outstanding during the respective period, after adjusting for the potential dilution of the assumed conversion of the Company's convertible debentures, shares issuable in connection with acquisition obligations, restricted stock and options to purchase the Company's common stock.

For the three-month periods ended March 31, 2009 and 2008, the Company incurred net losses; therefore, diluted loss per share is the same as basic loss per share for each period. For the three-month periods ended March 31, 2009 and 2008, the calculation of diluted loss per share excludes approximately 4,928,000 and 3,192,000, respectively, stock options or shares of restricted stock that are anti-dilutive to the Company's weighted average common shares outstanding. Additionally, for the three months ended March 31, 2008, the calculation of diluted loss per share excludes approximately 953,000 shares issuable in connection with acquisition obligations that are anti-dilutive to the Company's weighted average common shares outstanding.

The Company has \$59.2 million principal amount of 1.625% convertible debentures due 2024 and \$175 million principal amount of 3.50% convertible debentures due 2025 outstanding that, if converted, would have a potentially dilutive effect on the Company's stock. These debentures are convertible into 1.8 million shares of Common Stock for the \$59.2 million 1.625% issue, and 4.3 million shares of Common Stock for the \$175 million 3.50% issue only upon the occurrence of certain conditions. As required by EITF Issue No. 04-8, "The Effect of Contingently Convertible Debt on Diluted Earnings per Share," if dilutive, the impact of the contingently issuable shares must be included in the calculation of diluted earnings per share under the "if-converted" method, regardless of whether the conditions upon which the debentures would be convertible into shares of the Company's Common Stock have been met. Under the if-converted method, the assumed conversion of the 1.625% and 3.50% convertible debentures was anti-dilutive for both three-month periods ended March 31, 2009 and 2008.

(4) DISCONTINUED OPERATIONS

During the second quarter 2008, the Company committed to a plan to sell Euronet Essentis Limited ("Essentis"), a U.K. software entity, in order to focus its investments and resources on its transaction processing businesses. The Company is in the process of selling the business. Accordingly, Essentis's results of operations are shown as discontinued operations in the Unaudited Consolidated Statements of Operations for all periods presented. Previously, Essentis's results were reported in the EFT Processing Segment. The segment results in Note 8, Segment Information, also reflect the reclassification of Essentis's results to discontinued operations. The following amounts related to Essentis have been segregated from continuing operations and reported as discontinued operations:

(in thousands)	Acquired Intangible Assets	Goodwill	Total Intangible Assets

Balance as of March 31, 2009	<u>\$ 116,228</u>	<u>\$ 464,805</u>	<u>\$ 581,033</u>

Estimated annual amortization expense on intangible assets with finite lives, before income taxes, as of March 31, 2009, is expected to total \$21.9 million for 2009, \$21.4 million for 2010, \$17.8 million for 2011, \$15.6 million for 2012, \$11.3 million for 2013 and \$8.8 million for 2014.

The Company's annual goodwill impairment test is performed during the fourth quarter. The Company's annual impairment test for the year ended December 31, 2008 resulted in the Company recording an estimated non-cash goodwill impairment charge of \$219.8 million in the fourth quarter of 2008 related to its RIA money transfer business and its Spanish prepaid business. Additionally, the Company recorded a non-cash impairment charge of \$0.3 million in the fourth quarter of 2008 related to certain trade names and customer relationships of the RIA money transfer business. The Company completed the impairment testing in the first quarter of 2009 and recorded an additional non-cash goodwill impairment charge of \$8.8 million and a \$1.1 million non-cash impairment charge related to a money transfer intangible asset in the first quarter of 2009.

Determining the fair value of reporting units requires significant management judgment in estimating future cash flows and assessing potential market and economic conditions. It is reasonably possible that the Company's operations will not perform as expected, or that estimates or assumptions could change, which may result in the Company recording additional material non-cash impairment charges during the year in which these changes take place.

In March 2009, the Company repurchased in privately negotiated transactions \$10.8 million in principal amount of the 1.625% convertible debentures due 2024. During the three-months ended March 31, 2009, the Company repaid \$1.0 million of the term loan, of which \$0.5 million was a scheduled repayment. The remaining \$0.5 million represents prepayment of amounts not yet due and along with the convertible debentures repurchase resulted in the Company recognizing a \$0.1 million pre-tax loss on early retirement of debt.

As discussed in Note 2, Summary of Significant Accounting Policies and Practices, the Company adopted the provisions of FSP APB 14-1 which resulted in the adjustment of amounts previously reported for the Company's convertible debentures. The 1.625% convertible debentures had principal amounts outstanding of \$59.2 million and \$70.0 million and unamortized discounts outstanding of \$2.1 million and \$3.5 million as of March 31, 2009 and December 31, 2008, respectively. The discount will be amortized through December 15, 2009. Contractual interest expense was \$0.3 million and \$0.6 million and discount accretion was \$0.9 million and \$1.7 million for the three months ended March 31, 2009 and 2008, respectively. The effective interest rate was 7.1% for the three months ended March 31, 2009 and 2008. The carrying amount of the equity portion was \$32.3 million as of March 31, 2009 and December 31, 2008.

The 3.50% convertible debentures had principal amounts outstanding of \$175.0 million and unamortized discounts outstanding of \$26.0 million and \$27.6 million as of March 31, 2009 and December 31, 2008, respectively. The discount will be amortized through October 15, 2012. Contractual interest expense was \$1.5 million and discount accretion was \$1.6 million and \$1.4 million for the three months ended March 31, 2009 and 2008, respectively. The effective interest rate was 8.4% for the three months ended March 31, 2009 and 2008. The carrying amount of the equity portion was \$45.1 million as of March 31, 2009 and December 31, 2008.

(7) DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

During 2007, the Company entered into interest rate swap agreements for a total notional amount of \$50 million to manage interest rate exposure related to a portion of the term loan, which currently bears interest at the London Inter-Bank Offered Rate ("LIBOR") plus 200 basis points. The interest rate swap agreements are determined to be cash flow hedges and effectively convert \$50 million of the term loan to a fixed interest rate of 7.3% through the May 2009 maturity date of the swap agreements.

As of March 31, 2009, the Company had foreign currency forward contracts outstanding with a notional value of \$41.1 million, primarily in euros, which had a weighted average remaining maturity of 2.8 days. Although the Company enters into foreign currency forward contracts to offset foreign currency exposure related to the notional value of money transfer transactions collected in currencies other than the U.S. dollar, they are not designated as hedges under SFAS No. 133. This is mainly due the relatively short duration of the contracts, typically 1 to 14 days, and the frequency which the Company enters into them.

The Company has an office lease in a foreign country that requires payment in a currency that is not the functional currency of either party to the lease or the Company's reporting currency. Therefore, the lease contains an embedded derivative per SFAS No. 133 and its fair value is recorded in the Unaudited Consolidated Balance Sheet.

The Company provides comprehensive electronic payment solutions consisting of ATM network participation, outsourced ATM and POS management solutions, credit and debit card outsourcing and electronic recharge services for prepaid mobile airtime. Through this segment, the Company also offers a suite of integrated electronic financial transaction ("EFT") software solutions for electronic payment and transaction delivery systems.

In addition, in its administrative division, "Corporate Services, Eliminations and Other," the Company accounts for non-operating activity, certain intersegment eliminations and the costs of providing corporate and other administrative services to the three segments. [Table of Contents](#)**(9) FAIR VALUE MEASUREMENTS**

The Company's assets and liabilities recorded at fair value on a recurring basis are set forth in the following table:

(in thousands)	Carrying Value as of March 31, 2009	Fair Value Measurements as of March 31, 2009 Using	
		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs
Available-for-sale investment securities	\$ 1,579	\$ 1,579	\$ —
Interest rate swaps related to floating rate debt	(353)	—	(353)
Foreign currency derivative contracts	241	—	241
Embedded derivative in foreign lease	(569)	—	(569)

The Company values available for sale investment securities using quoted prices from the securities' primary exchange. Interest rate swaps are valued using present value measurements based on the LIBOR swap rate, credit spreads and other relevant market conditions. Foreign currency derivative contracts are valued using foreign currency exchange quotations for similar assets and liabilities. The embedded derivative in foreign lease is valued using present value techniques and foreign currency exchange quotations.

Certain assets are measured at fair value on a non-recurring basis. For the three months ended March 31, 2009, the Company finalized the assessment of the fair value of the goodwill related to its RIA money transfer business and its Spanish prepaid business and recorded an impairment charge as discussed in Note 5, Goodwill and Acquired Intangible Assets, Net. The fair values were determined using significant unobservable inputs. The fair value of goodwill was determined by calculating its implied fair value as the excess of the fair value of the respective entity over the fair value of its net assets. Additionally, management determined that an acquired intangible asset associated with a previous acquisition in the Money Transfer Segment had no value and, accordingly, the Company recorded a write-off of the remaining net book value of the intangible asset. The fair values of these assets are summarized in the following table:

(in thousands)	Carrying Value as of March 31, 2009	Fair Value Measurements as of March 31, 2009 Using Significant Unobservable Inputs	Total Losses for the Three Months Ended March 31, 2009
Goodwill	\$ 258,831	\$ 258,831	\$ (8,773)
Acquired intangible assets	—	—	(1,111)

(10) GUARANTEES

As of March 31, 2009, the Company had \$43.4 million of stand-by letters of credit/bank guarantees issued on its behalf, of which \$8.3 million are collateralized by cash deposits held by the respective issuing banks.

Euronet regularly grants guarantees in support of obligations of subsidiaries. As of March 31, 2009, the Company granted off balance sheet guarantees for cash in various ATM networks amounting to \$17.8 million over the terms of the cash supply agreements and performance guarantees amounting to approximately \$25.7 million over the terms of the agreements with the customers.

From time to time, Euronet enters into agreements with unaffiliated parties that contain indemnification provisions, the terms of which may vary depending on the negotiated terms of each respective agreement. The amount of such potential obligations is generally not stated in the agreements. Our liability under such indemnification provisions may be mitigated by relevant insurance coverage and may be subject to time and materiality limitations, monetary caps and other conditions and defenses. Such indemnification obligations include the following:

- In connection with contracts with financial institutions in the EFT Processing Segment, the Company is responsible for damages to ATMs and theft of ATM network cash that, generally, is not recorded on the Company's Consolidated Balance Sheets. As of March 31, 2009, the balance of ATM network cash for which the Company was responsible was approximately \$240 million. The Company maintains insurance policies to mitigate this exposure;

Table of Contents

- In connection with the license of proprietary systems to customers, Euronet provides certain warranties and infringement indemnities to the licensee, which generally warrant that such systems do not infringe on intellectual property owned by third parties and that the systems will perform in accordance with their specifications;
- Euronet has entered into purchase and service agreements with vendors and consulting agreements with providers of consulting services, pursuant to which the Company has agreed to indemnify certain of such vendors and consultants, respectively, against third-party claims arising from the Company's use of the vendor's product or the services of the vendor or consultant;
- In connection with acquisitions and dispositions of subsidiaries, operating units and business assets, the Company has entered into agreements containing indemnification provisions, which can be generally described as follows: (i) in connection with acquisitions made by Euronet, the Company has agreed to indemnify the seller against third party claims made against the seller relating to the subject subsidiary, operating unit or asset and arising after the closing of the transaction, and (ii) in connection with dispositions made by Euronet, Euronet has agreed to indemnify the buyer against damages incurred by the buyer due to the buyer's reliance on representations and warranties relating to the subject subsidiary, operating unit or business assets in the disposition agreement if such representations or warranties were untrue when made;
- Euronet has entered into agreements with certain third parties, including banks that provide fiduciary and other services to Euronet or to the Company's benefit plans. Under such agreements, the Company has agreed to indemnify such service providers for third party claims relating to the carrying out of their respective duties under such agreements; and
- The Company has obtained surety bonds in compliance with money transfer licensing requirements of the applicable governmental authorities and has agreed to reimburse the surety for any amounts that they are required to pay in connection with such bonds.

The Company is also required to meet minimum capitalization and cash requirements of various regulatory authorities in the jurisdictions in which the Company has money transfer operations. To date, the Company is not aware of any significant claims made by the indemnified parties or third parties to guarantee agreements with the Company and, accordingly, no liabilities were recorded as of March 31, 2009 or December 31, 2008.

(11) INCOME TAXES

The Company's effective tax rates were (81%) and 359% for the three-month periods ended March 31, 2009 and 2008, respectively. The effective tax rates were significantly influenced by the goodwill and acquired intangible assets impairment charge and foreign currency exchange net loss for the first quarter 2009 and the impairment loss on investment securities and foreign currency exchange net gain for the first quarter 2008. Excluding foreign currency exchange results and the impairments to goodwill and acquired intangible assets and to investment securities from pre-tax income, as well as the related tax effects for these items, the Company's effective tax rates were 41.6% and 28.1% for the three months ended March 31, 2009 and 2008, respectively.

The increase in the effective tax rate, as adjusted, for the first quarter 2009 compared to the same period in 2008 was primarily related to the loss of certain tax deductions in Spain as a result of the goodwill and acquired intangible assets impairment charges. Also, approximately \$3.5 million of contract termination fees were recorded in India which has a tax rate that is higher than the Company's weighted average effective tax rate.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OVERVIEW

COMPANY OVERVIEW, GEOGRAPHIC LOCATIONS AND PRINCIPAL PRODUCTS AND SERVICES

Euronet Worldwide, Inc. (together with our subsidiaries, "we," "us," "Euronet" or the "Company") is a leading electronic payments provider, offering automated teller machine ("ATM"), point-of-sale ("POS") and card outsourcing services, card issuing and merchant acquiring services, integrated electronic financial transaction ("EFT") software, network gateways, electronic distribution of top-up services for prepaid mobile airtime and other prepaid products, electronic consumer money transfer and bill payment services to financial institutions, mobile operators, retailers and individual customers. As of March 31, 2009, we operate in the following three principal business segments.

- An EFT Processing Segment, which processes transactions for a network of 9,205 ATMs and approximately 56,000 POS terminals across Europe, the Middle East and Asia Pacific. We provide comprehensive electronic payment solutions consisting of ATM network participation, outsourced ATM and POS management solutions, credit and debit card outsourcing and electronic recharge services for prepaid mobile airtime. Through this segment, we also offer a suite of integrated EFT software solutions for electronic payment and transaction delivery systems.
- A Prepaid Processing Segment, which provides distribution of prepaid mobile airtime and other prepaid products and collection services for various prepaid products, cards and services. We are one of the largest international providers of prepaid mobile airtime processing. Including terminals operated by unconsolidated subsidiaries, we operate a network of approximately 421,000 POS terminals providing electronic processing of prepaid mobile airtime top-up services in Europe, the Middle East, Asia Pacific and North America.
- A Money Transfer Segment, which provides global consumer to consumer money transfer services. We offer this service through a sending network of agents and Company-owned stores primarily in Europe and North America, disbursing money transfers through a worldwide payer network. Bill payment services are offered primarily in the U.S. Based on revenues and volumes, through this segment, we are the third-largest global money transfer company. The Money Transfer Segment originates and terminates transactions through a network of approximately 77,100 locations, which include sending agents and Company-owned stores, and an extensive payer network in more than 100 countries.

We have five processing centers in Europe, two in Asia Pacific and two in North America. We have 23 principal offices in Europe, six in North America, five in Asia Pacific and one in the Middle East. Our executive offices are located in Leawood, Kansas, USA. With approximately 73% of our revenues denominated in currencies other than the U.S. dollar, any significant changes in currency exchange rates will likely have a significant impact on our growth in revenues, operating income and diluted earnings per share.

SOURCES OF REVENUES AND CASH FLOW

Euronet earns revenues and income based on ATM management fees, transaction fees and commissions, professional services, software licensing fees and software maintenance agreements. Each business segment's sources of revenue are described below.

EFT Processing Segment — Revenues in the EFT Processing Segment, which represented approximately 20% of total consolidated revenues for the first quarter 2009, are derived from fees charged for transactions effected by cardholders on our proprietary network of ATMs, as well as fixed management fees and transaction fees we charge to banks for operating ATMs and processing credit cards under outsourcing agreements. Through our proprietary network, we generally charge fees for four types of ATM transactions: i) cash withdrawals, ii) balance inquiries, iii) transactions not completed because the relevant card issuer does not give authorization, and iv) prepaid telecommunication recharges. Revenues in this segment are also derived from license fees, professional services and maintenance fees for software and sales of related hardware. Software license fees are the fees we charge to license our proprietary application software to customers. Professional service fees consist of charges for customization, installation and consulting services to customers. Software maintenance revenues represent the ongoing fees charged for maintenance and support for customers' software products. Hardware sales are derived from the sale of computer equipment necessary for the respective software solution.

Prepaid Processing Segment — Revenues in the Prepaid Processing Segment, which represented approximately 57% of total consolidated revenues for the first quarter 2009, are primarily derived from commissions or processing fees received from telecommunications service providers for the sale and distribution of prepaid mobile airtime. We also generate revenues from commissions earned from the distribution of other prepaid products. Due to certain provisions in our mobile phone operator agreements, the operators have the ability to reduce the overall commission paid on each top-up transaction. However, by virtue of our agreements with retailers (distributors where POS terminals are located) in certain markets, not all of these reductions are absorbed by us because we are able to pass a significant portion of the reductions to retailers. Accordingly, under certain retailer agreements, the effect is to reduce revenues and reduce our direct operating costs resulting in only a small impact on gross margin and operating income. In some markets, reductions in commissions can significantly impact our results as it may not be possible, either contractually or commercially in the concerned market, to pass a

[Table of Contents](#)

reduction in commissions to the retailers. In Australia, certain retailers negotiate directly with the mobile phone operators for their own commission rates, which also limits our ability to pass through reductions in commissions. Agreements with mobile operators are important to the success of our business. These agreements permit us to distribute prepaid mobile airtime to the mobile operators' customers. Other products offered by this segment include prepaid long distance calling card plans, prepaid Internet plans, prepaid debit cards, prepaid gift cards, bill payment, money transfer and prepaid mobile content such as music, ringtones and games.

Money Transfer Segment — Revenues in the Money Transfer Segment, which represents approximately 23% of total consolidated revenues for the first quarter 2009, are primarily derived through the charging of a transaction fee, as well as the difference between purchasing foreign currency at wholesale exchange rates and selling the foreign currency to consumers at retail exchange rates. We have an origination network in place comprised of agents and company-owned stores in Europe and North America and a worldwide network of correspondent agents, consisting primarily of financial institutions in the transfer destination countries. Origination and correspondent agents each earn fees for cash collection and distribution services. These fees are recognized as direct operating costs at the time of sale.

Impact of changes in foreign currency exchange rates

Beginning in 2006 and through mid-2008, the U.S. dollar weakened compared to most of the currencies of the countries in which we operate. In the second half of 2008 and into the first quarter of 2009, the U.S. dollar strengthened significantly. Because our revenues and local expenses are recorded in the functional currencies of our operating entities, amounts we earned for the first quarter 2009 are negatively impacted by the strengthening of the U.S. dollar. We estimate that, depending on the mix of countries and currencies, our operating income for the first quarter 2009 was diminished by approximately 35% to 40% when compared to the first quarter 2008 as a result of changes in foreign currency exchange rates. If applicable, we will refer to the impact of fluctuation in foreign currency exchange rates in our comparison of operating segment results for the three-month periods ended March 31, 2009 and 2008. To provide further perspective on the impact of foreign currency exchange rates, the following table shows the changes in values relative to the U.S. dollar from first quarter 2008 to first quarter 2009 of the currencies of the countries in which we have our most significant operations:

Discontinued operations

During the second quarter 2008, we decided to sell Euronet Essentis Limited (“Essentis”), a U.K. software entity previously included in the EFT Processing Segment, in order to focus our investments and resources on our transaction processing businesses. We are in the process of selling the business. Accordingly, the results of operations for Essentis are shown as discontinued operations in the Unaudited Consolidated Statements of Operations for all periods presented and have been excluded from the table above.

Revenues

Our revenues for the first quarter 2009 decreased compared to the first quarter 2008 primarily due to the strengthening of the U.S. dollar in the first quarter 2009 compared to the first quarter 2008 relative to most of the currencies of the countries in which we operate. Because our revenues are recorded in the functional currencies of our operating entities, amounts we earn in foreign currencies are negatively impacted by the strengthening of the U.S. dollar. Additionally, the decrease in the number of ATMs operated, which is primarily due to the expiration or termination of ATM services contracts discussed in more detail in the following paragraphs, contributed to our revenue decrease. Partly offsetting these decreases were contract termination fees totaling \$4.4 million and increases in revenues primarily associated with our operations in India and our software business. The increase in revenues in the first quarter 2009 associated with our software business was primarily due to the sale of a significant license to an entity in which Euronet has a 10% stake.

Average monthly revenue per ATM was \$1,639 for the first quarter 2009, compared to \$1,366 for the first quarter 2008 and revenue per transaction was \$0.29 for both the first quarter 2009 and 2008. The increase in revenue per ATM is generally the result of the non-recurring contract termination fees discussed above and the expiration of an ATM services contract in the U.K. at the end of the first quarter 2008. The U.K. contract involved processing services only, with very little associated costs and, therefore, had lower-than-average revenue per ATM. As of March 31, 2008, we were providing processing services for approximately 2,400 ATMs under this contract prior to its expiration. Partly offsetting the improvement in average revenue per ATM is the addition of ATMs in India and China, where revenues per ATM have been historically lower than Central and Eastern Europe (due to lower labor costs).

Our contracts in the EFT Processing Segment tend to cover large numbers of ATMs, so significant increases and decreases in our pool of managed ATMs may result from entry into or termination of these management contracts. Banks have historically been very deliberate in negotiating these agreements and have evaluated a wide range of matters when deciding to choose an outsource vendor. Generally, the process of negotiating a new agreement is subject to extensive management analysis and approvals and the process typically takes six to twelve months or longer. Increasing consolidation in the banking industry could make this process less predictable.

[Table of Contents](#)

Our existing contracts generally have terms of five to seven years and a number of them will expire or be up for renewal each year for the next few years. As a result, we expect to be regularly engaged in discussions with one or more of our customer banks to either obtain renewal of, or restructure, our ATM outsourcing agreements. During the fourth quarter 2008 and first quarter 2009, certain customer contracts were terminated or expired, resulting in a decrease of approximately 1,700 ATMs. Most of the ATM reductions resulted from bank customers shifting their processing to related processing subsidiaries in contemplation of selling the subsidiaries to raise capital, rather than the loss of contracts to competitors. The reduction in the number of ATMs from contract terminations or expirations was partially offset by increases in ATMs driven under new contracts, expansion of ATMs under existing contracts and the deployment of ATMs in markets where we operate Euronet-branded ATMs.

For contracts that we are able to renew, as was the case for contract renewals in Romania and Greece in prior years, we expect customers to seek rate concessions or up-front payments because of the greater availability of alternative processing solutions in many of our markets now, as compared to when we originally entered into the contracts. Excluding the expiring or terminated contracts discussed above, we have been able to renew or extend most of the remaining contracts that came up for renewal in 2008 or were due to expire in 2009. While we have been successful in many cases in obtaining new terms that preserve the same level of earnings arising from the agreements, we have not been successful in all cases and, therefore, we expect to experience reductions in revenues in future quarters arising from the expiration or restructuring of agreements.

For the contracts that expired during the fourth quarter 2008 and first quarter 2009, excluding the substantial termination fees described above, we estimate that the impact to 2009 will be a reduction in revenues of approximately \$15 million to \$16 million, resulting in reduced operating income of approximately \$3 million to \$4 million. We cannot be sure we will have sufficient revenues from new contracts to offset potential revenue reductions from expired or restructured agreements.

Direct operating costs

Direct operating costs consist primarily of site rental fees, cash delivery costs, cash supply costs, maintenance, insurance, telecommunications and the cost of data center operations-related personnel, as well as the processing centers' facility related costs and other processing center related expenses. The decrease in direct operating costs for the first quarter 2009, compared to the first quarter 2008, is attributed to the impact of the strengthening U.S. dollar and the decrease in the number of ATMs under operation.

Gross profit

Gross profit, which is calculated as revenues less direct operating costs, increased to \$27.3 million for the first quarter 2009 from \$26.5 million for the first quarter 2008. This increase is mainly attributable to the contract termination fee revenues discussed above, partly offset by the impact of the strengthening U.S. dollar. Gross profit as a percentage of revenues ("gross margin") was 59% for the first quarter 2009 compared to 55% for the first quarter 2008 mainly as a result of the non-recurring contract termination fees discussed above, partly offset by increased contributions of our subsidiaries in India and China, which have historically earned a lower gross margin than our other operations.

Salaries and benefits

The decrease in salaries and benefits for the first quarter 2009 compared to the first quarter 2008 was primarily due to the impact of the strengthening U.S. dollar discussed above, partly offset by increased staffing costs to support growth in ATMs managed in India and China as well as costs resulting from general merit increases awarded to employees. As a percentage of revenues these costs decreased to 15% of revenues for the first quarter 2009 compared to 16% for the first quarter 2008.

Selling, general and administrative

The increase in selling, general and administrative expenses for the first quarter 2009 compared to the first quarter 2008 is due primarily to increased expenses incurred in connection with growth in India and China and in our cross-border merchant processing and acquiring business. Partly offsetting these increases is the impact of the strengthening U.S. dollar discussed above. As a percentage of revenues, selling, general and administrative expenses were 9% for the first quarter 2009 compared to 8% for the first quarter 2008.

Depreciation and amortization

The decrease in depreciation and amortization expense for the first quarter 2009 compared to the first quarter 2008 is due primarily to the impact of the strengthening U.S. dollar described above. As a percentage of revenues, depreciation and amortization expense was 9% of revenues for the first quarter 2009 compared to 10% for the same period in 2008.

[Table of Contents](#)*Operating income*

The increase in operating income was primarily due to the substantial contract termination revenues described above, partly offset by the impact of the strengthening U.S. dollar. Operating income as a percentage of revenues for the first quarter 2009 was 26%, compared to 21% for the first quarter 2008, and operating income per transaction was \$0.07 for the first quarter 2009, compared to \$0.06 per transaction for the first quarter 2008.

PREPAID PROCESSING SEGMENT

Revenues

The decrease in revenues for first quarter 2009 compared to first quarter 2008 was primarily due to the strengthening of the U.S. dollar in the first quarter 2009 compared to the same period in 2008 relative to most of the currencies of the countries in which we operate, particularly the Australian dollar and British pound. Because our revenues are recorded in the functional currencies of our operating entities, amounts we earn in foreign currencies are negatively impacted by the strengthening of the U.S. dollar. This decrease was partly offset by an increase in total transactions processed, led by improvements in Australia, Germany and the U.S. Our Australian subsidiary enhanced its market position in the first quarter 2009 by signing an exclusive, long-term distribution agreement with Vodafone Australia. The agreement strengthens our existing relationship with Vodafone and preserves our gross margins during the term of the agreement.

In certain more mature markets, such as the U.K., New Zealand and Spain, our revenue growth has slowed substantially or revenues have decreased because conversion from scratch cards to electronic top-up is substantially complete and certain mobile operators and retailers are driving competitive reductions in pricing and margins. We expect most of our future revenue growth to be derived from: (i) additional products sold over the base of prepaid processing terminals, (ii) developing markets or markets in which there is organic growth in the prepaid sector overall, (iii) continued conversion from scratch cards to electronic top-up in less mature markets, and (iv) acquisitions, if available.

Revenues per transaction decreased to \$0.73 for the first quarter 2009 from \$0.86 for the first quarter 2008 primarily due to the impact of the strengthening U.S. dollar.

Direct operating costs

Direct operating costs in the Prepaid Processing Segment include the commissions we pay to retail merchants for the distribution and sale of prepaid mobile airtime and other prepaid products, as well as expenses required to operate POS terminals. Because of their nature, these expenditures generally fluctuate directly with revenues and processed transactions. The decrease in direct operating costs is generally attributable to the impact of the strengthening U.S. dollar, partly offset by the increase in total transactions processed.

[Table of Contents](#)

Gross profit

Gross profit, which represents revenues less direct costs, was \$25.5 million for the first quarter 2009 compared to \$26.4 million for the first quarter 2008. Gross margin increased slightly to 19% for the first quarter 2009 compared to 18% for the first quarter 2008 and gross profit per transaction decreased to \$0.14 for the first quarter 2009 compared to \$0.16 for the first quarter 2008. The primary cause of the reduction in gross profit per transaction is the impact of the strengthening U.S. dollar.

Salaries and benefits

The decrease in salaries and benefits for first quarter 2009 compared to the first quarter 2008 is primarily due to the impact of the strengthening U.S. dollar, partly offset by additional overhead to support development in new and growing markets. As a percentage of revenues, salaries and benefits increased to 4.8% for first quarter 2009 from 4.6% for first quarter 2008.

Selling, general and administrative

The decrease in selling, general and administrative expenses for the first quarter 2009 compared to the first quarter 2008 is due to the impact of the strengthening U.S. dollar, partly offset by additional overhead to support development in other new and growing markets. As a percentage of revenues, these expenses decreased to 3.4% for first quarter 2009 from 3.7% for the first quarter 2008.

Depreciation and amortization

Depreciation and amortization expense primarily represents amortization of acquired intangibles and the depreciation of POS terminals we install in retail stores. Depreciation and amortization expense decreased for the first quarter 2009 compared to the first quarter 2008 mainly due to the impact of the strengthening U.S. dollar. As a percentage of revenues, these expenses decreased to 2.7% for the first quarter 2009 from 2.9% for the first quarter 2008.

Operating income

The improvement in operating income for 2009 compared to 2008 was due to the growth in transactions processed, partly offset by the impact of foreign currency translations to the U.S. dollar.

Operating income as a percentage of revenues was 8.1% for the first quarter 2009 compared to 7.2% for the first quarter 2008. The increase is primarily due to the increase in transactions processed and the associated leveraging of fixed costs. Operating income per transaction remained flat at \$0.06 for both first quarter 2009 and 2008 reflecting the leveraging of fixed costs offsetting the negative impact of the strengthening U.S. dollar.

MONEY TRANSFER SEGMENT

The following tables present the results of operations for the three-month periods ended March 31, 2009 and 2008 for the Money Transfer Segment:

Revenues

Revenues from the Money Transfer Segment include a transaction fee for each transaction as well as the difference between purchasing currency at wholesale exchange rates and selling the currency to customers at retail exchange rates. Revenue per transaction decreased to \$13.24 for the first quarter 2009 from \$13.77 for the first quarter 2008. The growth rate of revenues lagged the transaction growth rate largely as a result of the impact of the strengthening U.S. dollar. Because our revenues are recorded in the functional currencies of our operating entities, amounts we earn in foreign currencies are negatively impacted by the strengthening of the U.S. dollar. This decrease was partly offset by a strong increase in transfers from non-U.S. locations which generally have higher-than-average revenue per transaction. For the first quarter 2009, 65% of our money transfers were initiated in the U.S., 32% in Europe and 3% in other countries, such as Canada and Australia. This compares to 70% initiated in the U.S., 28% initiated in Europe and 2% initiated in other countries for the first quarter 2008. We expect that the U.S. will continue to represent our highest volume market; however, future growth is expected to be derived largely from non-U.S. initiated sources.

The increase in revenues for the first quarter 2009 compared to the first quarter 2008 is primarily due to an increase in the number of transactions processed, partly offset by the negative impact of the strengthening U.S. dollar. For the first quarter 2009, money transfers to Mexico, which represented 27% of total money transfers, decreased by 12% while transfers to all other countries increased 15% when compared to the first quarter 2008. The increase in transfers to all other countries was due to the expansion of our operations and continued growth in immigrant worker populations. The decline in transfers to Mexico was largely the result of downturns in certain labor markets and other economic factors impacting the U.S. market as well as immigration developments in the U.S. These issues have also resulted in certain competitors lowering transaction fees and foreign currency exchange spreads in certain markets where we do business in an attempt to limit the impact on money transfer volumes. We have generally maintained our pricing structure in response to these developments.

Direct operating costs

Direct operating costs in the Money Transfer Segment primarily represent commissions paid to agents that originate money transfers on our behalf and distribution agents that disburse funds to the customers' destination beneficiary, together with less significant costs, such as telecommunication and bank and other fees to collect money from originating agents. While direct operating costs generally increase or decrease by a similar percentage as transactions, growth in transactions has exceeded the change in direct costs due to a greater growth rate for Company-owned stores than for agents along with the impact of the strengthening U.S. dollar.

[Table of Contents](#)

Gross profit

Gross profit, which represents revenues less direct costs, was \$27.4 million for the first quarter 2009 compared to \$26.0 million for the first quarter 2008. This improvement is primarily due to the growth in money transfer transactions, particularly in Company-owned stores discussed above. As discussed above, certain competitors have been lowering transaction fees and foreign currency exchange spreads in the U.S. market as a result of the economic factors and immigration developments impacting the U.S. market. We have generally maintained our pricing structure in response to these developments. We cannot predict how long these issues will continue to affect the U.S. market or whether other markets will experience similar issues and we cannot predict whether we will change our pricing strategy over the short or long term in order to protect or increase market share. Gross margin as a percentage of revenues was 52% for the first quarter 2009 compared to 50% for the first quarter 2008. The improvement primarily reflects the strong growth in transaction volume in our more profitable non-U.S. locations.

Salaries and benefits

Salaries and benefits include salaries and commissions paid to employees, the cost of providing employee benefits, amounts paid to contract workers and accruals for incentive compensation. While salaries and benefits were basically flat for the first quarter 2009 compared to the first quarter 2008, the impact of the strengthening U.S. dollar offset the increased expenditures we incurred to support expansion of our operations, primarily internationally.

Selling, general and administrative

Selling, general and administrative expenses include operations support costs, such as rent, utilities, professional fees, indirect telecommunications, advertising and other miscellaneous overhead costs. The increase in selling, general and administrative expenses for the first quarter 2009 compared to the first quarter 2008 is primarily the result of increased expenditures to support expansion of our operations, primarily internationally, partly offset by the impact of the strengthening U.S. dollar.

Goodwill and acquired intangible assets impairment

In the fourth quarter of 2008, we recorded a non-cash impairment charge of \$169.4 million related to certain goodwill and intangible assets of the RIA money transfer business in accordance with the provisions of Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets" and SFAS No. 144, "Accounting for the Impairment of Disposal of Long-Lived Assets." This charge was an estimate based on the assessment performed up to the filing date of our 2008 Annual Report on Form 10-K. We completed the assessment in the first quarter of 2009 and recorded an additional \$9.9 million non-cash impairment charge in the first quarter of 2009. Should the current economic crisis worsen or should other factors cause us to significantly lower our cash flow projections for our money transfer business, we will need to reassess the business for further possible impairment. See Note 5, Goodwill and Acquired Intangible Assets, Net, to the Unaudited Consolidated Financial Statements for a further discussion of this charge.

Depreciation and amortization

Depreciation and amortization primarily represents amortization of acquired intangibles and also includes depreciation of money transfer terminals, computers and software, leasehold improvements and office equipment. While depreciation and amortization was essentially flat for the first quarter 2009 compared to the first quarter 2008, the impact of the strengthening U.S. dollar offset increased charges related to additional computer equipment in our customer service centers and increased leasehold improvements, office equipment and computer equipment for expansion of our company stores.

Operating income

Excluding the goodwill and acquired intangible assets impairment charge, operating income for the first quarter 2009 was flat compared to the first quarter 2008. This reflects the growth in transactions processed, mainly those originated in non-U.S. locations, which was offset by the impact of the strengthening U.S. dollar and costs to expand internationally, as discussed in more detail in the sections above.

CORPORATE SERVICES

Depreciation and amortization	313	294	19	6%
Total operating expenses	<u>\$ 5,217</u>	<u>\$ 9,199</u>	<u>\$ (3,982)</u>	(43%)

Corporate operating expenses

Operating expenses for Corporate Services decreased substantially for the first quarter 2009 compared to the first quarter 2008. The decrease in salaries and benefits is primarily the result of the first quarter 2009 reversal of share-based compensation related to certain performance-based stock awards and severance costs related to certain senior level positions incurred in the first quarter 2008. The decrease in selling, general and administrative expenses was due primarily to the first quarter 2008 write-off of \$3.0 million in professional fees and settlement costs associated with our potential acquisition of MoneyGram.

Interest income

The decrease in interest income for the first quarter 2009 from the first quarter 2008 was primarily due to a decline in short-term interest rates and a decrease in average cash balances on hand between the respective periods. Additionally, \$1.2 million was recognized in the first quarter 2008 for interest related to the federal excise tax refund recorded in the fourth quarter 2007.

Interest expense

The decrease in interest expense for the first quarter 2009 from the first quarter 2008 was primarily related to the reductions in debt from scheduled and early repayments on our term loan and repurchases of convertible debentures and reductions in amounts outstanding under the revolving credit facility. The decrease in interest expense is also due to lower interest rates on our floating-rate debt obligations in the first quarter 2009 compared to the first quarter 2008.

Income from unconsolidated affiliates Income from unconsolidated affiliates represents the equity in income of our 40% equity investment in e-pay Malaysia and our 49% investment in Euronet Middle East. The increase in income is mainly the result of improved profitability of both affiliates.

[Table of Contents](#)

Unrealized loss on investment securities

During the first quarter 2008, the value of our investment in MoneyGram declined and the decline was determined to be other than temporary. Accordingly, we recognized a \$17.5 million impairment loss.

Loss on early retirement of debt

In March 2009, we repurchased in privately negotiated transactions \$10.8 million in principal amount of the 1.625% convertible debentures due 2024. Loss on early retirement of debt of \$0.1 million for the first quarter 2009 represents the difference in the amounts paid for the convertible debentures over their carrying amounts as well as the pro-rata write-off of deferred financing costs associated with the portion of the term loan that was prepaid during the first quarter 2009. The \$0.2 million loss for the first quarter 2008 is associated with term loan amount that was prepaid during the first quarter 2008. We expect to continue to use available cash flows to prepay amounts outstanding under the term loan and to repurchase the 1.625% convertible debentures if attractive terms are available.

Net foreign currency exchange gain (loss), net

Assets and liabilities denominated in currencies other than the local currency of each of our subsidiaries give rise to foreign currency exchange gains and losses. Exchange gains and losses that result from re-measurement of these assets and liabilities are recorded in determining net income. The majority of our foreign currency gains or losses are due to the re-measurement of intercompany loans that are in a currency other than the functional currency of either the entity making or receiving the loan. For example, we make intercompany loans based in euros from our corporate division, which is comprised of U.S. dollar functional currency entities, to certain European entities that use the euro as the functional currency. As the U.S. dollar strengthens against the euro, foreign currency losses are generated on our corporate entities because the number of euros to be received in settlement of the loans decreases in U.S. dollar terms. Conversely, in this example, in periods where the U.S. dollar weakens, our corporate entities will record foreign currency gains.

We recorded a net foreign currency exchange loss of \$10.6 million in the first quarter 2009 and a net foreign currency gain of \$13.1 million in the first quarter 2008. During the first quarter 2009, the U.S. dollar strengthened against most of the currencies of the countries in which we operate, creating realized and unrealized foreign currency exchange losses. This compares to the first quarter 2008, when the U.S. dollar weakened against these currencies and we, therefore, recorded realized and unrealized foreign currency exchange gains.

Income tax expense, as adjusted	<u>\$ 5,787</u>	<u>\$ 2,033</u>
Effective income tax rate, as adjusted	<u>41.6%</u>	<u>28.1%</u>

Our effective tax rates were (81%) and 359% for the three-month periods ended March 31, 2009 and 2008, respectively. The effective tax rates were significantly influenced by the goodwill and acquired intangible assets impairment charge and foreign currency exchange net loss for the first quarter 2009 and the impairment loss on investment securities and foreign currency exchange net gain for the first quarter 2008. Excluding foreign currency exchange results and the impairment charges from pre-tax income, as well as the related tax effects for these items, our effective tax rates were 41.6% and 28.1% for the three months ended March 31, 2009 and 2008, respectively.

The increase in the effective tax rate, as adjusted, for the first quarter 2009 compared to the same period in 2008 was primarily related to the loss of certain tax deductions in Spain as a result of the goodwill and acquired intangible assets impairment charges. Also, approximately \$3.5 million of contract termination fees were recorded in India which has a tax rate that is higher than our weighted average effective tax rate.

OTHER*Discontinued operations, net*

During the second quarter 2008, we decided to sell Essentis in order to focus our investments and resources on our transaction processing businesses. We are in the process of selling the business. Accordingly, Essentis's results of operations are shown as discontinued operations in the Unaudited Consolidated Statements of Operations for all periods presented.

Net income attributable to noncontrolling interests

Net income attributable to noncontrolling interests was \$0.3 million and \$0.6 million for first quarter 2009 and 2008, respectively. Noncontrolling interests represents the elimination of net income or loss attributable to the minority shareholders' portion of our consolidated subsidiaries that are not wholly-owned. Our subsidiaries which are not wholly-owned are summarized in the table below:

Subsidiary	Percent Owned	Segment
Movilcarga	80%	Prepaid - Spain
e-pay SRL	51%	Prepaid - Italy
ATX	51%	Prepaid - various
Euronet China	75%	EFT - China

NET LOSS ATTRIBUTABLE TO EURONET WORLDWIDE, INC.

Net loss attributable to Euronet Worldwide, Inc. was \$12.3 million for the first quarter 2009 compared to \$8.6 million for the first quarter 2008. As more fully discussed above, the increased loss of \$3.7 million was primarily the result of the \$23.7 million increase in foreign currency losses and the \$3.5 million decrease in operating income. These were partly offset by the \$17.5 million first quarter 2008 unrealized loss on investment securities along with a \$4.8 million decrease in income tax expense, a \$0.8 million decrease in loss from discontinued operations and other items totaling \$0.4 million.

LIQUIDITY AND CAPITAL RESOURCES

Working capital

As of March 31, 2009, we had working capital, which is calculated as the difference between total current assets and total current liabilities, of \$80.1 million, compared to working capital of \$99.1 million as of December 31, 2008. Our ratio of current assets to current liabilities was 1.16 at March 31, 2009, compared to 1.17 as of December 31, 2008. The decrease in working capital was due primarily to the use of cash to reduce revolving credit facility borrowings.

We require substantial working capital to finance operations. The Money Transfer Segment funds the correspondent distribution network before receiving the benefit of amounts collected from customers by agents. Working capital needs increase due to weekends and international banking holidays. As a result, we may report more or less working capital for the Money Transfer Segment based solely upon the fiscal period ending on a particular day. As of March 31, 2009, working capital in the Money Transfer Segment was \$42.5 million. We expect that working capital needs will increase as we expand this business. The Prepaid Processing Segment produces positive working capital, but much of it is restricted in connection with the administration of its customer collection and vendor remittance activities. The EFT Processing Segment does not require substantial working capital.

Operating cash flow

Cash flows provided by operating activities were \$15.1 million for the first quarter 2009 compared to \$14.6 million for the first quarter 2008. The slight increase was primarily due to fluctuations in working capital associated with the timing of the settlement process with mobile operators in the Prepaid Processing Segment and improved operating results adjusted for non-cash items, partly offset by amounts paid to secure an exclusive, long-term distribution agreement with a vendor in Australia.

Investing activity cash flow

Cash flows used by investing activities were \$10.6 million for the first quarter 2009, compared to cash flows provided of \$13.5 million for the first quarter 2008. Our investing activities include \$6.6 million and \$10.0 million for purchases of property and equipment in the first quarter 2009 and 2008, respectively. Additionally, first quarter 2009 included \$3.3 million in cash used for acquisitions compared to \$1.8 million for the first quarter 2008. Our investing activities for the first quarter 2008 consisted of the return of \$26 million we placed in escrow in first quarter 2007 in connection with the agreement to acquire Envios de Valores La Nacional Corp. ("La Nacional"). On January 10, 2008, we entered into a settlement agreement with La Nacional and its stockholder evidencing the parties' mutual agreement not to consummate the acquisition, in exchange for payment by Euronet of a portion of the legal fees incurred by La Nacional. Finally, cash used for software development and other investing activities totaled \$0.6 million and \$0.8 million in the first quarter 2009 and 2008, respectively.

Financing activity cash flow

Cash flows used by financing activities were \$22.7 million during the first quarter 2009 compared to \$62.6 million during the first quarter 2008. Our financing activities for the first quarter of 2009 consisted primarily of net repayments of debt obligations of \$21.3 million

[Table of Contents](#)

compared to \$63.1 million in first quarter 2008. To support the short-term cash needs of our Money Transfer Segment, we generally borrow amounts under the revolving credit facility several times each month to fund the correspondent network in advance of collecting remittance amounts from the agency network. These borrowings are repaid over a very short period of time, generally within a few days. Primarily as a result of this, during the first quarter 2009 we had a total of \$90.4 million in borrowings and \$98.4 million in repayments under our revolving credit facility. During the first quarter 2009, we paid \$11.4 million for repayments and early retirements of debt obligations, and \$1.8 million for capital lease obligations. Additionally, we paid \$2.4 million of dividends to noncontrolling interests stockholders in the first quarter 2009. Expected future financing and investing cash requirements primarily depend on our acquisition activity and the related financing needs.

Other sources of capital

Credit Facility — To finance the acquisition of RIA in the second quarter 2007, we entered into a \$290 million secured credit facility consisting of a \$190 million seven-year term loan, which was fully drawn at closing, and a \$100 million five-year revolving credit facility (together, the “Credit Facility”). The \$190 million seven-year term loan bears interest at LIBOR plus 200 basis points or prime plus 100 basis points and requires that we repay 1% of the outstanding balance each year, with the remaining balance payable after seven years. We estimate that we will be able to repay the term loan prior to its maturity date through cash flows available from operations, provided our operating cash flows are not required for future business developments. Up front financing costs of \$4.8 million have been deferred and are being amortized over the terms of the respective loans.

During February 2009, we entered into Amendment No. 2 to the Credit Facility to, among other things, (i) provide us the right under the Credit Facility to (a) repurchase the remaining \$70 million of 1.625% Convertible Senior Debentures Due 2024 then outstanding and (b) repurchase our 3.5% Convertible Debentures Due 2025 prior to any repurchase date using proceeds of a qualifying refinancing, the proceeds of a qualifying equity issuance or shares of common stock; (ii) revise the definition of Consolidated EBITDA and the covenant regarding maintenance of Consolidated Net Worth to exclude the effect of non-cash charges for impairment of goodwill or other intangible assets for the periods ending December 31, 2008 and thereafter; and (iii) broaden or otherwise modify various definitions or provisions related to Indebtedness, Liens, Permitted Disposition, Debt Transactions, Investments and other matters. Additionally, the lenders acknowledged that we have sufficient liquidity with respect to the December 15, 2009 repurchase date for the 1.625% Convertible Senior Debentures. Furthermore, in February 2009, our Board of Directors authorized the repurchase of up to \$70 million of the 1.625% Convertible Senior Debentures, from time to time, in open market or privately negotiated purchases. We incurred costs of approximately \$1.5 million in connection with the amendment, which will be recognized as additional interest expense over the remaining term of the Credit Facility.

The \$100 million five-year revolving credit facility bears interest at LIBOR or prime plus a margin that adjusts each quarter based upon our Consolidated EBITDA ratio as defined in the Credit Facility agreement. We intend to use the revolving credit facility primarily to fund working capital requirements, which are expected to increase as we expand the Money Transfer business. Based on our current projected working capital requirements, we anticipate that our revolving credit facility will be sufficient to fund our working capital needs.

We may be required to repay our obligations under the Credit Facility six months before any potential repurchase dates, the first being October 15, 2012, under our \$175 million 3.5% Convertible Debentures Due 2025, unless we are able to demonstrate that either: (i) we could borrow unsubordinated funded debt equal to the principal amount of the applicable convertible debentures while remaining in compliance with the financial covenants in the Credit Facility or (ii) we will have sufficient liquidity to meet repayment requirements (as determined by the administrative agent and the lenders). The Credit Facility contains four financial covenants that we must meet as defined in the agreement: (1) total debt to EBITDA ratio, (2) senior secured debt to EBITDA ratio, (3) EBITDA to fixed charge coverage ratio and (4) minimum Consolidated Net Worth. These and other material terms and conditions applicable to the Credit Facility are described in the agreement governing the Credit Facility.

The term loan may be expanded by up to an additional \$150 million and the revolving credit facility can be expanded by up to an additional \$25 million, subject to satisfaction of certain conditions including pro forma debt covenant compliance.

As of March 31, 2009, we had borrowings of \$131.0 million outstanding against the term loan. We had borrowings of \$8.5 million and stand-by letters of credit of \$30.0 million outstanding against the revolving credit facility. The remaining \$61.5 million under the revolving credit facility (\$86.5 million if the facility were increased to \$125.0 million) was available for borrowing. Borrowings under the revolving credit facility are being used to fund short-term working capital requirements in the U.S. and India. Our weighted average interest rate under the revolving credit facility as of March 31, 2009 was 4.7%.

Short-term debt obligations — Short-term debt obligations at March 31, 2009 were primarily the \$57.0 million 1.625% Convertible Senior Debentures Due 2024 as the holders have the option to require us to repurchase their debentures at par on December 15, 2009, and the \$1.9 million annual repayment requirement under the term loan. Certain of our subsidiaries also have available credit lines and overdraft facilities to supplement short-term working capital requirements, when necessary, and there were no borrowings outstanding against these facilities as of March 31, 2009.

[Table of Contents](#)

We believe that the short-term debt obligations can be refinanced on terms acceptable to us. However, if acceptable refinancing options are not available, we believe that amounts due under these obligations can be funded through cash generated from operations, together with cash on hand or borrowings under our revolving credit facility.

Convertible debt — We have \$175 million in principal amount of 3.50% Convertible Debentures Due 2025 that are convertible into 4.3 million shares of Euronet Common Stock at a conversion price of \$40.48 per share upon the occurrence of certain events (relating to the closing prices of Euronet Common Stock exceeding certain thresholds for specified periods). The debentures may not be redeemed by us until October 20, 2012 but are redeemable at par at any time thereafter. Holders of the debentures have the option to require us to purchase their debentures at par on October 15, 2012, 2015 and 2020, or upon a change in control of the Company. On the maturity date, these debentures can be settled in cash or Euronet Common Stock, at our option, at predetermined conversion rates.

We also have \$59.2 million in principal amount of 1.625% Convertible Senior Debentures Due 2024 that are convertible into 1.8 million shares of Euronet Common Stock at a conversion price of \$33.63 per share upon the occurrence of certain events (relating to the closing prices of Euronet Common Stock exceeding certain thresholds for specified periods). The debentures may not be redeemed by us until December 20, 2009 but are redeemable at any time thereafter at par. Holders of the debentures have the option to require us to purchase their debentures at par on December 15, 2009, 2014 and 2019, and upon a change in control of the Company. Unless the price of our Common Stock appreciates substantially before December 2009, we believe it is likely that the holders of the debentures will exercise this option effective December 15, 2009. Based upon our current expectations, we believe we will have sufficient cash available to fund the potential \$59.2 million purchase price using our cash currently on hand, cash flows we expect to generate through December 2009 and amounts we expect to be available to borrow under our revolving credit facility. However, if our capital resources are insufficient to meet these obligations, we may be required to seek additional debt or equity financing.

Should holders of the convertible debentures require us to repurchase their debentures on the dates outlined above, we cannot guarantee that we will have sufficient cash on hand or have acceptable financing options available to us to fund these required repurchases. An inability to be able to finance these potential repayments could have an adverse impact on our operations. These terms and other material terms and conditions applicable to the convertible debentures are set forth in the indenture agreements governing these debentures.

Other uses of capital

Payment obligations related to acquisitions - We have potential contingent obligations to the former owner of the net assets of Movilcarga. Based upon presently available information, we do not believe any additional payments will be required. The seller disputed this conclusion and initiated arbitration as provided for in the purchase agreement. A global public accounting firm was engaged as an independent expert to review the results of the computation, but procedures for such review have never been commenced, principally because the seller is in a bankruptcy proceeding. Any additional payments, if ultimately determined to be owed the seller, will be recorded as additional goodwill and could be made in either cash or a combination of cash and Euronet Common Stock at our option.

In connection with the acquisition of Brodos Romania, we agreed to contingent consideration arrangements based on the achievement of certain performance criteria. If the criteria are achieved, during 2009 and 2010, we would have to pay a total of \$2.5 million in cash or 75,489 shares of Euronet Common Stock, at the option of the seller.

Capital expenditures and needs — Total capital expenditures for the first quarter 2009 were \$6.7 million. These capital expenditures were primarily for the purchase of ATMs to meet contractual requirements in Poland, India and China, the purchase and installation of ATMs in key under-penetrated markets, the purchase of POS terminals for the Prepaid Processing and Money Transfer Segments, and office, data center and company store computer equipment and software, including capital expenditures for the purchase and development of the necessary processing systems and capabilities to enter the cross-border merchant processing and acquiring business. Total capital expenditures for 2009 are currently estimated to be approximately \$35 million to \$45 million.

In the Prepaid Processing Segment, approximately 100,000 of the approximately 421,000 POS devices that we operate are Company-owned, with the remaining terminals being operated as integrated cash register devices of our major retail customers or owned by the retailers. As our Prepaid Processing Segment expands, we will continue to add terminals in certain independent retail locations at a price of approximately \$300 per terminal. We expect the proportion of owned terminals to total terminals operated to remain relatively constant.

At current and projected cash flow levels, we anticipate that cash generated from operations, together with cash on hand and amounts available under our revolving credit facility and other existing and potential future financing will be sufficient to meet our debt, leasing, contingent acquisition and capital expenditure obligations. If our capital resources are not sufficient to meet these obligations, we will seek to refinance our debt under terms acceptable to us. However, we can offer no assurances that we will be able to obtain favorable terms for the refinancing of any of our debt or other obligations. In the event we were to require additional debt financing in the future, the severe liquidity disruptions in the credit markets could materially impact our ability to obtain debt financing on reasonable terms. The inability to access debt financing on reasonable terms could materially impact our ability to make acquisitions, refinance existing indebtedness or effectively operate or materially expand our business in the future.

Other trends and uncertainties

Cross border merchant processing and acquiring — In our EFT Processing Segment, we have entered the cross-border merchant processing and acquiring business, through the execution of an agreement with a large petrol retailer in Central Europe. Since the beginning of 2007, we have devoted significant resources, including capital expenditures of approximately \$7.8 million, to the ongoing investment in development of the necessary processing systems and capabilities to enter this business, which involves the purchase and design of hardware and software. Merchant acquiring involves processing credit and debit card transactions that are made on POS terminals, including authorization, settlement, and processing of settlement files. It will involve the assumption of credit risk, as the principal amount of transactions will be settled to merchants before settlements are received from card associations. We incurred \$1.0 million in operating losses related to this business in the first quarter 2009 and currently expect to incur approximately \$3.0 million to \$4.0 million in operating losses for the full year 2009.

Inflation and functional currencies

Generally, the countries in which we operate have experienced low and stable inflation in recent years. Therefore, the local currency in each of these markets is the functional currency. Currently, we do not believe that inflation will have a significant effect on our results of operations or financial position. We continually review inflation and the functional currency in each of the countries where we operate.

OFF BALANCE SHEET ARRANGEMENTS

We regularly grant guarantees of the obligations of our wholly-owned subsidiaries and we sometimes enter into agreements with unaffiliated third parties that contain indemnification provisions, the terms of which may vary depending on the negotiated terms of each respective agreement. Our liability under such indemnification provisions may be subject to time and materiality limitations, monetary caps and other conditions and defenses. As of March 31, 2009, there were no material changes from the disclosure in our Annual Report on Form 10-K for the year ended December 31, 2008. To date, we are not aware of any significant claims made by the indemnified parties or parties to whom we have provided guarantees on behalf of our subsidiaries and, accordingly, no liabilities have been recorded as of March 31, 2009. See also Note 10, Guarantees, to the Unaudited Consolidated Financial Statements.

CONTRACTUAL OBLIGATIONS

As of March 31, 2009, the only material change from the disclosure relating to contractual obligations contained in our Annual Report on Form 10-K for the year ended December 31, 2008, is the net reduction of \$19.4 million of principal on long-term debt through repayment of debt and repurchases of debentures.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2009, the FASB issued FSP FAS 141(R)-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies." FSP FAS 141(R)-1 amends the requirements to measure contingencies acquired in a business combination at fair value, requiring that a contingency acquired in a business combination be initially measured at fair value on the acquisition date if fair value can be determined during the measurement period. Acquired contingencies whose fair value cannot be determined during the measurement period would be recognized if it is probable that an asset existed or liability had been incurred at the acquisition date and the amount for that asset or liability can be reasonably estimated. FSP FAS 141(R)-1 is effective for Euronet beginning January 1, 2009, concurrent with the adoption of SFAS No. 141(R), and it did not have a material impact on the Consolidated Financial Statements.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments," which requires the annual fair value disclosures about financial instruments within the scope of FAS 107 to also be made in interim financial statements. FSP FAS 107-1 and APB 28-1 is effective for Euronet for the quarterly reporting period ending June 30, 2009. The Company's adoption of FSP FAS 107-1 and APB 28-1 is not expected to have a material impact on the Consolidated Financial Statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest rate risk

As of March 31, 2009, our total debt outstanding was \$354.1 million. Of this amount, \$206.1 million, or 58% of our total debt obligations, relates to contingent convertible debentures having fixed coupon rates. Our \$175 million principal amount of contingent convertible debentures, issued in October 2005, accrue cash interest at a rate of 3.50% of the principal amount per annum. The \$59.2 million principal amount of contingent convertible debentures, issued in December 2004 accrue cash interest at a rate of 1.625% of the principal amount per annum. Based on quoted market prices, as of March 31, 2009, the fair value of our fixed rate convertible debentures was \$183.9 million, compared to a carrying value of \$206.1 million.

Through the use of interest rate swap agreements, \$50.0 million of our variable rate term debt has been effectively converted to a fixed rate of 7.3% through May 29, 2009. As of March 31, 2009, the unrealized loss on the interest rate swap agreements was \$0.4 million. Interest expense for our total \$256.1 million in fixed rate debt totals approximately \$21.3 million per year, or a weighted average interest rate of 8.3% annually. Additionally, approximately \$8.5 million, or 2% of our total debt obligations, relate to capitalized leases with fixed payment and interest terms that expire between 2009 and 2014.

After the interest rate swap agreement expires in the second quarter, the remaining \$139.5 million, or 39% of our total debt obligations, relates to debt that will accrue interest at variable rates. If we were to maintain these borrowings for one year, and maximize the potential borrowings available under the revolving credit facility for one year, including the \$25.0 million in potential additional expanded borrowings, a 1% increase in the applicable interest rate would result in additional interest expense to the Company of approximately \$2.3 million. This computation excludes the potential \$150.0 million in potential expanded term loan because of the limited circumstances under which the additional amounts would be available to us for borrowing.

Our excess cash is invested in instruments with original maturities of three months or less; therefore, as investments mature and are reinvested, the amount we earn will increase or decrease with changes in the underlying short term interest rates.

Foreign currency exchange rate risk

For the first quarter 2009, 73% of our revenues were generated in non-U.S. dollar countries compared to 75% for the first quarter 2008. We expect to continue generating a significant portion of our revenues in countries with currencies other than the U.S. dollar.

We are particularly vulnerable to fluctuations in exchange rates of the U.S. dollar to the currencies of countries in which we have significant operations, primarily to the euro, British pound, Australian dollar and Polish zloty. As of March 31, 2009, we estimate that a 10% fluctuation in these foreign currency exchange rates would have the combined annualized effect on reported net income and working capital of approximately \$25 to \$35 million. This effect is estimated by applying a 10% adjustment factor to our non-U.S. dollar results from operations, intercompany loans that generate foreign currency gains or losses and working capital balances that require translation from the respective functional currency to the U.S. dollar reporting currency. Additionally, we have other non-current, non-U.S. dollar assets and liabilities on our balance sheet that are translated to the U.S. dollar during consolidation. These items primarily represent goodwill and intangible assets recorded in connection with acquisitions in countries other than the U.S. We estimate that a 10% fluctuation in foreign currency exchange rates would have a non-cash impact on total comprehensive income of approximately \$45

[Table of Contents](#)

million to \$55 million as a result of the change in value of these items during translation to the U.S. dollar. For the fluctuations described above, a strengthening U.S. dollar produces a financial loss, while a weakening U.S. dollar produces a financial gain. We believe this quantitative measure has inherent limitations and does not take into account any governmental actions or changes in either customer purchasing patterns or our financing or operating strategies. Because a majority of our revenues and expenses are incurred in the functional currencies of our international operating entities, the profits we earn in foreign currencies are positively impacted by the weakening of the U.S. dollar and negatively impacted by the strengthening of the U.S. dollar. Additionally, our debt obligations are primarily in U.S. dollars, therefore, as foreign currency exchange rates fluctuate, the amount available for repayment of debt will also increase or decrease.

We are also exposed to foreign currency exchange rate risk in our Money Transfer Segment. A majority of the money transfer business involves receiving and disbursing different currencies, in which we earn a foreign currency spread based on the difference between buying currency at wholesale exchange rates and selling the currency to consumers at retail exchange rates. This spread provides some protection against currency fluctuations that occur while we are holding the foreign currency. Our exposure to changes in foreign currency exchange rates is limited by the fact that disbursement occurs for the majority of transactions shortly after they are initiated. Additionally, we enter into foreign currency forward contracts to help offset foreign currency exposure related to the notional value of money transfer transactions collected in currencies other than the U.S. dollar. As of March 31, 2009, we had foreign currency forward contracts outstanding with a notional value of \$41.1 million, primarily in euros that were not designated as hedges and mature in a weighted average of 2.8 days. The fair value of these forward contracts as of March 31, 2009 was an unrealized gain of approximately \$0.2 million, which was partially offset by the unrealized gain on the related foreign currency receivables.

ITEM 4. CONTROLS AND PROCEDURES

Our executive management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) under the Exchange Act as of March 31, 2009. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that the design and operation of these disclosure controls and procedures were effective as of such date to provide reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

CHANGE IN INTERNAL CONTROLS

There has been no change in our internal control over financial reporting during the first quarter 2009 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is from time to time a party to litigation arising in the ordinary course of its business.

Currently, there are no legal proceedings that management believes, either individually or in the aggregate, would have a material adverse effect upon the consolidated results of operations or financial condition of the Company.

ITEM 1A. RISK FACTORS

You should carefully consider the risks described in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 as updated in our subsequent filings with the SEC before making an investment decision. The risks and uncertainties described in our Annual Report on Form 10-K, as updated by any subsequent Quarterly Reports on Form 10-Q, are not the only ones facing our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of the risks identified in our Annual Report on Form 10-K, as updated by any subsequent Quarterly Reports on Form 10-Q, actually occurs, our business, financial condition or results of operations could be materially adversely affected. In that case, the trading price of our Common Stock could decline substantially. This Quarterly Report also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of a number of factors, including the risks described below and elsewhere in this Quarterly Report.

[Table of Contents](#)

Other than as set forth below, there have been no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, as filed with the SEC.

Risks Related to Our Business

Our prepaid mobile airtime top-up and money transfer businesses may be susceptible to fraud and/or credit risks occurring at the retailer and/or consumer level.

In our Prepaid Processing Segment, we contract with retailers who accept payment on our behalf, which we then transfer to a trust or other operating account for payment to mobile phone operators. In the event a retailer does not transfer to us payments that it receives for mobile airtime, whether as a result of fraud, insolvency or otherwise, we are responsible to the mobile phone operator for the cost of the airtime credited to the customer's mobile phone. We can provide no assurance that retailer fraud or insolvency will not increase in the future or that any proceeds we receive under our credit enhancement insurance policies will be adequate to cover losses resulting from retailer fraud, which could have a material adverse effect on our business, financial condition and results of operations.

With respect to our money transfer business, our business is primarily conducted through our agent network, which provides money transfer services directly to consumers at retail locations. Our agents collect funds directly from consumers and in turn we collect from the agents the proceeds due to us resulting from the money transfer transactions. Therefore, we have credit exposure to our agents. Additionally, our Company-owned stores transact a significant amount of business in cash. Although we have safeguards in place, cash transactions have a higher exposure to fraud and theft than other types of transactions. The failure of agents owing us significant amounts to remit funds to us or to repay such amounts, or the loss of cash in our stores could have a material adverse effect on our business, financial condition and results of operations.

Increases in taxes could negatively impact our operating results.

As a result of the current economic downturn, tax receipts have decreased and/or government spending has increased in many of the countries in which we operate. Consequently, governments may increase tax rates or implement new taxes in order to compensate for gaps between tax revenues and expenditures. Additionally, governments may prohibit or restrict the use of certain legal structures designed to minimize taxes. Any such tax increases, whether borne by us or our customers, could negatively impact our operating results or the demand for our products.

- (2) This Agreement shall remain in effect until December 31, 2000, and shall automatically renew at the end of this term for consecutive two year terms unless either party notifies the other party in writing of its intent not to renew this Agreement at least six months prior to the close of the initial or any subsequent two year period.

- (4) The right to terminate this Agreement for serious material breach (außerordentliche Kündigung) remains intact. In the event the Employer wishes to terminate this Agreement for serious material breach, it shall give a warning notice and an opportunity for the Employee to respond to the Employer's concerns. Termination by the Employer shall be permitted only after the Employee has failed to remedy his conduct or performance in a manner which responds satisfactorily to the warning notice. The parties hereby agree that the Employee's failure to remedy his conduct or performance, within thirty days of the Employer's warning notice, in a manner which responds satisfactorily to the warning notice shall constitute a serious material breach ("wichtiger Grund") which shall entitle the Employer to terminate this Agreement without notice ("fristlose Kündigung") pursuant to Article 626 of the German Civil Code.

The targets and the bonus structure based on such targets will be determined by the Company and confirmed in writing to the Employee in the beginning of each year, when annual targets for the Employee are established. For 1997, the bonus shall be allocated among the following targets:

- (5) In the event that the Employee becomes unable to perform his work responsibilities due to illness or other reasons beyond the Employee's control, the company will continue to pay the Employee the fixed compensation provided for in paragraph 1 hereof for a period of 3 months. Notwithstanding the above, such payments shall cease with the expiration of this Agreement. The amount of this compensation shall be reduced by any payments received by the Employee during this period of incapacity from the state health insurance or pension fund. In the event that the duration of incapacity exceeds six months, the Company's owners shall be entitled to reduce the bonus provided for in paragraph 3 hereof by a reasonable proportion. The Employee has no right to a bonus if he is incapacitated during an entire fiscal year.

Article 6
Non-Competition

During the term of this Agreement, the Employee shall not compete with the Company nor participate, directly or indirectly in companies which compete with the Company or with which the Company does business. This restriction does not prevent the Employee from buying or holding publicly trade shares in such companies, to the extent that his participation does not exceed one percent of the respective company's share capital. The Employee's violation of the provisions of this Article shall constitute an important material breach which shall entitle the Company to terminate this Agreement without notice (außerordentliche Kündigung).

Article 7

The Employee shall keep confidential with respect to third parties all matters relating to the Company (in particular business and operation secrets) as well as all customer information which he obtained during his employment with the Company; this obligation shall survive the termination or expiration to this Agreement. The parties shall replace the invalid provision, or supplement the necessary missing provision, with the provisions which lead to the result which the parties would have agreed upon had they known of the invalidity or absence of the respective provisions.

(1) in subclause (iii) all references to the "Convertible Debentures" are amended to read "Convertible Subordinated Debentures";

(2) the "and" at the end of subclause (ii) is deleted and an "and" is inserted at the end of subclause (iii); and

(3) a new clause (iv) is added providing “the redemption, retirement, repurchase, or acquisition for value of the Convertible Subordinated Debentures, at any time and from time to time, (A) in connection with a refinancing, refunding, renewal or extension of the Convertible Subordinated Debentures otherwise permitted under Section 8.03(c), (B) in exchange for Capital Stock of EWI issued directly to the holders of the Convertible Subordinated Debentures or (C) with the proceeds of an Equity Transaction permitted for such purpose hereunder.”

(b) The “Notwithstanding” sentence at the end of Section 8.10 is amended to read as follows:

“Notwithstanding the foregoing, EWI shall be permitted to redeem, repurchase, retire or acquire, at any time and from time to time, Convertible Senior Debentures (whether for cash and/or in exchange for Capital Stock of EWI) so long as no Default or Event of Default shall exist immediately before or immediately after giving effect to such redemption, repurchase, retirement or acquisition.”

2.9 Section 8.13(a) (Consolidated Net Worth) is amended to read as follows:

(a) Consolidated Net Worth. At any time, permit Consolidated Net Worth to be less than the sum of (i) 75% of Consolidated Net Worth (as established by the financial statements delivered pursuant to Section 7.01(b) for the fiscal quarter ending March 31, 2007) after giving effect to the RIA Acquisition on a Pro Forma Basis plus (ii) an amount equal to 50% of cumulative Consolidated Net Income (but not less than zero) from the end of the first fiscal quarter to occur after the Closing Date, plus (iii) an amount equal to 75% of net cash proceeds from Equity Transactions occurring after the Closing Date, minus (iv) one-time non-cash charges for impairment of goodwill or other intangible assets taken during the period ending December 31, 2008 and thereafter to the extent not included in the foregoing clause (ii) hereof.

2.10 The Domestic Security Agreement is amended such that (a) each reference in Section 5(k) and (l) thereof to a Patent, Trademark or Copyright is amended by inserting the word “material” immediately prior to such reference and (b) the portion of Schedule 1(b) (Intellectual Property) thereto relating to Patents is amended to read as attached hereto. Certain information on the version of that schedule delivered at closing was incomplete or inaccurate. The corrected schedule is provided with the intent to address and correct such items. Further, by execution of this Amendment, the Lenders waive any Default or Event of Default that exists, or may have existed, on account of the foregoing but that would not have existed had the amendments provided for by this Section 2.10 been in effect at the relevant time.

3. EWI’s Objection to FASB 141(R). As permitted by Section 1.03(c) of the Credit Agreement, EWI hereby objects to determining compliance with any financial ratio or requirement set forth in any Credit Documents under the computations required by FASB Statement No. 141(R) (Business Combinations) and the Lenders hereby acknowledge that such computations shall continue to be made on a basis consistent with the most recent financial statements delivered by EWI under Section 7.01(b).

4. Conditions Precedent. This Amendment shall be effective (such date on which this Amendment becomes effective, the “Amendment No. 2 Effectiveness Date”) immediately upon satisfaction of the following conditions:

(a) Executed Amendment. Receipt by the Administrative Agent of multiple counterparts of this Amendment duly executed by the Credit Parties, the Required Lenders and the Administrative Agent.

(b) Legal Opinions. Receipt by the Administrative Agent of favorable legal opinions of counsel for EWI and the other Domestic Credit Parties, in form and substance reasonably satisfactory to the Administrative Agent and the requisite Lenders.

(c) Organization Documents, Incumbency, Resolutions, Etc. Receipt by the Administrative Agent of the following, each of which shall be originals or facsimiles (followed promptly by originals), in form and substance satisfactory to the Administrative Agent:

(i) copies of the Organization Documents of each Domestic Credit Party certified to be true and complete as of a recent date by the appropriate Governmental Authority of the state or other jurisdiction of its incorporation or organization, where applicable, and certified by a secretary or assistant secretary of such Domestic Credit Party to be true and correct as of the date of this Amendment, unless a Responsible Officer of EWI certifies in a certificate that the Organization Documents previously delivered to the Administrative Agent in connection with the Credit Agreement have not been amended, supplemented or otherwise modified and remain in full force and effect as of the date hereof;

(ii) incumbency certificates identifying the Responsible Officers of the Domestic Credit Parties who are authorized to execute this Amendment and related documents and to act on the Domestic Credit Parties behalf in connection with this Amendment and the Credit Documents, unless a Responsible Officer of EWI certifies in a certificate that the incumbency certificates previously delivered to the Administrative Agent in connection with the Credit Agreement have not been amended, supplemented or otherwise modified and remain in full force and effect as of the date hereof.

(iii) such certificates of resolutions or other action, incumbency certificates and/or other certificates of Responsible Officers of each Domestic Credit Party as the Administrative Agent may require evidencing the identity, authority and capacity of each Responsible Officer thereof authorized to act as a Responsible Officer in connection with this Amendment; and

(iv) such documents and certifications as the Administrative Agent may reasonably require to evidence that each Domestic Credit Party is duly organized or formed, and is validly existing, and in good standing in its state of organization or formation.

(d) Receipt by the Administrative Agent of (i) a fee, for the benefit of the Lenders consenting to this Amendment, in an amount equal to one half of one percent (0.50%) of the aggregate amount of such consenting Lenders' loans and commitments under the Credit Agreement and (ii) all other fees and expenses required to be paid on or before the Amendment No. 2 Effectiveness Date.

5. Effectiveness of Amendment. On and after the date hereof, all references to the Credit Agreement in each of the Credit Documents shall hereafter mean the Credit Agreement as amended by this Amendment. For purposes of clarification, all financial covenant calculations with respect to periods prior to the Amendment No. 2 Effectiveness Date will be made using the financial definitions and

covenants as amended by this Amendment. Except as specifically amended hereby or otherwise agreed, the Credit Agreement is hereby ratified and confirmed and shall remain in full force and effect according to its terms.

6. Representations and Warranties: Defaults. The Credit Parties hereby affirm each of the following:

- (a) all necessary action to authorize the execution, delivery and performance of this Amendment has been taken;
- (b) after giving effect to this Amendment, the representations and warranties set forth in the Credit Agreement and the other Credit Documents are true and correct in all material respects as of the date hereof (except to the extent that such representations and warranties specifically refer to an earlier date, in which case they shall be true and correct as of such earlier date, and except that for purposes of this Section 6, the representations and warranties contained in subsections (a) and (b) of Section 6.05 of the Credit Agreement shall be deemed to refer to the most recent statements furnished pursuant to clauses (a) and (b), respectively, of Section 7.01 of the Credit Agreement).
- (c) except as waived in Section 2.10 of this Amendment, before and after giving effect to this Amendment, no Default or Event of Default shall exist; and
- (d) except as expressly provided otherwise herein, the liens and security interests created and granted in the Credit Documents remain in full force and effect and this Amendment is not intended to adversely affect or impair such liens and security interests in any manner.

7. Full Force and Effect. Except as modified hereby, all of the terms and provisions of the Credit Agreement and the other Credit Documents (including schedules and exhibits thereto) shall remain in full force and effect.

8. Reaffirmation of Security Interests. The Credit Parties (a) affirm that each of the liens granted in or pursuant to the Credit Documents are valid and subsisting and (b) agree that this Amendment shall in no manner impair or otherwise adversely effect any of the liens granted in or pursuant to the Credit Documents.

9. Counterparts. This Amendment may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed an original, and it shall not be necessary in making proof of this Amendment to produce or account for more than one such counterpart. Delivery by any party hereto of an executed counterpart of this Amendment by facsimile shall be effective as such party's original executed counterpart and shall constitute a representation that such party's original executed counterpart will be delivered.

10. Fees and Expenses. The Credit Parties agree to pay all reasonable costs and expenses of the Administrative Agent in connection with the preparation, execution and delivery of this Amendment, including the reasonable fees and expenses of Moore & Van Allen, PLLC.

11. Governing Law. This Amendment shall be governed by, and construed in accordance with, the law of the State of New York.

[SIGNATURES ON FOLLOWING PAGES]

IV. STOCK SUBJECT TO THE PLAN

- 4.01 *Number of Shares.* Subject to adjustment as provided in Section 4.03 and subject to the maximum amount of Shares that may be granted to an individual in a calendar year as set forth in Section 5.05, no more than a total of Four Million (4,000,000) Shares are authorized for issuance under the Plan (the "Maximum Limitation") in accordance with the provisions of the Plan and subject to such restrictions or other provisions as the Committee may from time to time deem necessary. Any Shares issued hereunder may consist, in whole or in part, of authorized and unissued shares or treasury shares. The Shares may be divided among the various Plan components as the Committee shall determine; provided, however, the maximum number of Shares that may be issued pursuant to Incentive Stock Options shall be the Maximum Limitation. Shares that are subject to an underlying Award and Shares that are issued pursuant to the exercise of an Award shall be applied to reduce the maximum number of Shares remaining available for use under the Plan. The Company shall at all times during the term of the Plan and while any Awards are outstanding retain as authorized and unissued Stock, or as treasury Stock, at least the number of Shares from time to time required under the provisions of the Plan, or otherwise assure itself of its ability to perform its obligations hereunder.

Notwithstanding the foregoing, any Shares used for full or partial payment of the purchase price of the Shares with respect to which an Option is exercised and any Shares retained by the Company pursuant to Section 16.02 that were originally Incentive Stock Option Shares must still be considered as having been granted for purposes of determining whether the Share limitation provided for in Section 4.01 has been reached for purposes of Incentive Stock Option grants.
- 4.03 *Adjustment in Authorized Shares.* If, without the receipt of consideration therefore by the Company, the Company shall at any time increase or decrease the number of its outstanding Shares or change in any way the rights and privileges of such Shares such as, but not limited to, the payment of a stock dividend or any other distribution upon such Shares payable in Stock, or through a stock split, subdivision, consolidation, combination, reclassification or recapitalization involving the Stock, such that an adjustment is necessary in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan, then in relation to the Shares that are affected by one or more of the above events, the numbers, rights and

privileges of (i) the Shares as to which Awards may be granted under the Plan, (ii) the exercise or purchase price of each outstanding Award, and (iii) the Shares then included in each outstanding Award granted hereunder, shall be increased, decreased or changed in like manner, as if the Shares underlying the Award had been issued and outstanding, fully paid and non assessable at the time of such occurrence. The manner in which Awards are adjusted pursuant to this Section 4.03 is to be determined by the Board or the Committee; provided that all adjustments must be determined by the Board or Committee in good faith, and must be effectuated so as to preserve the value that any Participant has in outstanding Awards as of the time of the event giving rise to any potential dilution or enlargement of rights.

4.04 *General Adjustment Rules.*

- (a) If any adjustment or substitution provided for in this Section 4 shall result in the creation of a fractional Share under any Award, such fractional Share shall be rounded to the nearest whole Share and fractional Shares shall not be issued.
- (b) In the case of any such substitution or adjustment affecting an Option or a SAR (including a Nonqualified Stock Option) such substitution or adjustments shall be made in a manner that is in accordance with the substitution and assumption rules set forth in Treasury Regulations 1.424-1 and the applicable guidance relating to Code section 409A.

V. PARTICIPATION

- 5.01 *Basis of Grant.* Participants in the Plan shall be those Service Providers, who, in the judgment of the Committee, are performing, or during the term of their incentive arrangement will perform, important services in the management, operation and development of the Company, and significantly contribute, or are expected to significantly contribute, to the achievement of long-term corporate economic objectives. Participants may also include Service Providers who, in the Committee's discretion, are entitled to receive Awards as an inducement to perform services for the Company or any Subsidiary; provided that an Award Agreement may contain terms and conditions providing for the termination of such inducement Award in the event that such Service Provider is not retained to perform services for the Company with the period specified therein.
- 5.02 *Types of Grants; Limits.* Participants may be granted from time to time one or more Awards; provided, however, that the grant of each such Award shall be separately approved by the Committee or its designee, and receipt of one such Award shall not result in the automatic receipt of any other Award. Written notice shall be given to such Person, specifying the terms, conditions, right and duties related to such Award. Under no circumstance shall Incentive Stock Options be granted to (i) non-employee directors, (ii) Consultants, (iii) any prospective non-employee director, employee or consultant, or (iv) any person not permitted to receive Incentive Stock Options under the Code.

- 5.03 *Award Agreements.* Each Participant shall enter into an Award Agreement(s) with the Company, in such form as the Committee shall determine and which is consistent with the provisions of the Plan, specifying such terms, conditions, rights and duties. Unless otherwise explicitly stated in the Award Agreement, Awards shall be deemed to be granted as of the date specified in the grant resolution of the Committee, which date shall be the date of any related agreement(s) with the Participant. Unless explicitly provided for in a particular Award Agreement that the terms of the Plan are being superseded, in the event of any inconsistency between the provisions of the Plan and any such Award Agreement(s) entered into hereunder, the provisions of the Plan shall govern.
- 5.04 *Restrictive Covenants.* The Committee may, in its sole and absolute discretion, place certain restrictive covenants in an Award Agreement requiring the Participant to agree to refrain from certain actions. Such Restrictive Covenants, if contained in the Award Agreement, will be binding on the Participant.
- 5.05 *Maximum Annual Award.* The maximum number of Shares with respect to which an Award or Awards may be granted to any Participant in any one taxable year of the Company (the "Maximum Annual Participant Award") shall not exceed Four Hundred Thousand (400,000) Shares (increased, proportionately, in the event of any stock split or stock dividend with respect to the Shares). The Maximum Annual Participant Award shall include any Bonus Shares that are paid to a Participant in that taxable year pursuant to the achievement of one or more established and objective performance goals under the Company's Executive Annual Incentive Plan or pursuant to any other Company-sponsored compensation plan or program. If an Option is in tandem with a SAR, such that the exercise of the Option or SAR with respect to a Share cancels the tandem SAR or Option right, respectively, with respect to each Share, the tandem Option and SAR rights with respect to each Share shall be counted as covering but one Share for purposes of the Maximum Annual Participant Award.

VI. STOCK OPTIONS

- 6.01 *Grant of Options.* A Participant may be granted one or more Options. The Committee in its sole discretion shall designate whether an Option is an Incentive Stock Option or a Nonqualified Stock Option. The Committee may grant both an Incentive Stock Option and a Nonqualified Stock Option to the same Participant at the same time or at different times. Incentive Stock Options and Nonqualified Stock Options, whether granted at the same or different times, shall be deemed to have been awarded in separate grants, shall be clearly identified, and in no event shall the exercise of one Option affect the right to exercise any other Option or affect the number of Shares for which any other Option may be exercised.
- 6.02 *Option Agreements.* Each Option granted under the Plan shall be evidenced by a written Option Award Agreement which shall be entered into by the Company and the Participant to whom the Option is granted (the "Option Holder"), and which shall contain, or be subject to, the following terms and conditions, as well as such other terms and conditions not inconsistent therewith, as the Committee may consider appropriate in each case.

- (a) *Number of Shares.* Each Option Award Agreement shall state that it covers a specified number of Shares, as determined by the Committee. To the extent that the aggregate Fair Market Value of Shares with respect to which Options designated as Incentive Stock Options are exercisable for the first time by any Option Holder during any calendar year exceeds \$100,000 or, if different, the maximum limitation in effect at the time of grant under section 422(d) of the Code, or any successor provision, such Options in excess of such limit shall be treated as Nonqualified Stock Options. The foregoing shall be applied by taking Options into account in the order in which they were granted. For the purposes of the foregoing, the Fair Market Value of any Share shall be determined as of the time the Option with respect to such Share is granted. In the event the foregoing results in a portion of an Option designated as an Incentive Stock Option exceeding the \$100,000 limitation, only such excess shall be treated as a Nonqualified Stock Option.
- (b) *Price.* Each Option Award Agreement shall state the Option Exercise Price at which each Share covered by an Option may be purchased. Such Option Exercise Price shall be determined in each case by the Committee; provided, however, that the Option Exercise Price for each Share covered by an Incentive Stock Option shall not be less than the Fair Market Value of the Stock on the Option's Grant Date and provided further that the Incentive Stock Option granted to an Eligible Employee who then owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any parent or Subsidiary corporation of the Company must be at least 110% of the Fair Market Value of the Stock subject to the Incentive Stock Option on the Option's Grant Date.
- (c) *Duration of Options.* Each Option Award Agreement shall state the period of time, determined by the Committee, within which the Option may be exercised by the Option Holder (the "Option Period"). The Option Period must expire, in all cases, not more than ten years from the Option's Grant Date; provided, however, that the Option Period of an Incentive Stock Option granted to an Eligible Employee who then owns Stock possessing more than 10% of the total combined voting power of all classes of Stock of the Company must expire not more than five years from the Option's Grant Date. Each Option Award Agreement shall also state the periods of time, if any, as determined by the Committee, when incremental portions of each Option shall become exercisable. If any Option or portion thereof is not exercised during its Option Period, such unexercised portion shall be deemed to have been forfeited and have no further force or effect. Due to Code section 409A's treatment of an extension or renewal of an Option as the granting of a new Option, the Committee shall not extend or renew the term of an Option without the consent of the Holder.
- (d) *Termination of Service, Death, Disability, etc.* Each Option Agreement shall state the period of time, if any, determined by the Committee, within which the Vested Option may be exercised after an Option Holder ceases to be a Service Provider on account of the Participant's death, Disability, voluntary resignation, removal

from the Board or the Company having terminated such Option Holder's employment with or without Cause. Unless an Option Award Agreement provides otherwise, a Participant's change in status between serving as an employee and/or director will not be considered a cessation of the Participant as a Service Provider for purposes of any Option expiration period under the Plan.

- (e) *Transferability.* Except as otherwise determined by the Committee, Options shall not be transferable by the Option Holder except by will or pursuant to the laws of descent and distribution. Each Vested Option shall be exercisable during the Option Holder's lifetime only by him or her, or in the event of Disability or incapacity, by his or her guardian or legal representative. Shares issuable pursuant to any Option shall be delivered only to or for the account of the Option Holder, or in the event of Disability or incapacity, to his or her guardian or legal representative.
- (f) *Exercise, Payments, etc.*
 - (i) Unless otherwise provided in the Option Award Agreement, each Vested Option may be exercised by delivery to the Corporate Secretary of the Company a written notice specifying the number of Shares with respect to which such Option is exercised and payment of the Option Exercise Price. Such notice shall be in a form satisfactory to the Committee or its designee and shall specify the particular Vested Option that is being exercised and the number of Shares with respect to which the Vested Option is being exercised. The exercise of the Vested Option shall be deemed effective upon receipt of such notice by the Corporate Secretary and payment to the Company. The purchase of such Stock shall take place at the principal offices of the Company upon delivery of such notice, at which time the purchase price of the Stock shall be paid in full by any of the methods or any combination of the methods set forth in (ii) below.
 - (ii) The Option Exercise Price may be paid by any of the following methods:
 1. Cash or Certified bank check;
 2. By delivery to the Company of a number of Shares then owned by the Holder, the Fair Market Value of which equals the purchase price of the Stock purchased pursuant to the Vested Option.; provided, however, that Shares used for this purpose must have been held by the Holder for such minimum period of time as may be established from time to time by the Committee; and provided further that the Fair Market Value of any Shares delivered in payment of the purchase price upon exercise of the Options shall be the Fair Market Value as of the exercise date, which shall be the date of delivery of the certificates for the Stock used as payment of the Option Exercise Price.

In lieu of actually surrendering to the Company a number of Shares then owned by the Holder, the Committee may, in its discretion permit the Holder to submit to the Company a statement affirming ownership by the Holder of such number of Shares and request that such Shares, although not actually surrendered, be deemed to have been surrendered by the Holder as payment of the exercise price.

3. For any Holder other than an Executive Officer or except as otherwise prohibited by the Committee, by payment through a broker in accordance with procedures permitted by Regulation T of the Federal Reserve Board.
 4. For any Nonqualified Stock Option, by a “net exercise” arrangement pursuant to which the Company will not require a payment of the Option Exercise Price but will reduce the number of Shares of Stock upon the exercise by the largest number of whole shares that has a Fair Market Value on the date of exercise that does not exceed the aggregate Option Exercise Price.
 5. Any combination of the consideration provided in the foregoing subsections (1), (2), (3) and (4).
- (iii) The Company shall not guarantee a third-party loan obtained by a Holder to pay part or the entire Option Exercise Price of the Shares.
- (g) *Date of Grant.* An option shall be considered as having been granted on the date the Committee or its delegate completes the corporate action necessary to create a legally binding right constituting the option, as set forth under the applicable Treasury Regulations issued under Section 409A.
- (h) *Withholding.*
- (i) *Nonqualified Stock Options.* Upon any exercise of a Nonqualified Stock Options, the Option Holder shall make appropriate arrangements with the Company to provide for the minimum amount of additional withholding required by applicable federal and state income tax and payroll laws, including payment of such taxes through delivery of Stock or by withholding Stock to be issued under the Option, as provided in Section 16.
 - (ii) *Incentive Stock Options.* In the event that an Option Holder makes a disposition (as defined in section 424(c) of the Code) of any Stock acquired pursuant to the exercise of an Incentive Stock Option prior to the later of (a) the expiration of two years from the date on which the Incentive Stock Option was granted or (b) the expiration of one year from the date on which the Option was exercised, the Participant shall send

written notice to the Company at its principal office (Attention: Corporate Secretary) of the date of such disposition, the number of shares disposed of, the amount of proceeds received from such disposition, and any other information relating to such disposition as the Company may reasonably request. The Option Holder shall, in the event of such a disposition, make appropriate arrangements with the Company to provide for the amount of additional withholding, if any, required by applicable Federal and state income tax laws.

- (i) *Adjustment of Options.* Subject to the limitations set forth below and those contained in Sections 6, 13.04 and 15, the Committee may make any adjustment in the Option Exercise Price, the number of Shares subject to, or the terms of, an outstanding Option and a subsequent granting of an Option by amendment or by substitution of an outstanding Option. Such amendment, substitution, or re-grant may result in terms and conditions (including Option Exercise Price, number of Shares covered, vesting schedule or exercise period) that differ from the terms and conditions of the original Option. The Committee may not, however, adversely affect the rights of any Option Holder to previously granted Options without the consent of such Option Holder. If such action is affected by the amendment, the effective date of such amendment shall be the date of the original grant. Any adjustment, modification, extension or renewal of an Option shall be effected such that the Option is either exempt from, or is compliant with, Code section 409A.
- 6.03 *Stockholder Privileges.* No Holder shall have any rights as a stockholder with respect to any Shares covered by an Option until the Holder becomes the holder of record of such Stock, and no adjustments shall be made for dividends or other distributions or other rights as to which there is a record date preceding the date such Holder becomes the holder of record of such Stock, except as provided in Section 4.

VII. STOCK APPRECIATION RIGHTS

- 7.01 *Grant of SARs.* Subject to the terms and conditions of this Plan, a SAR may be granted to a Participant at any time and from time to time as shall be determined by the Committee in its sole discretion. The Committee may grant Freestanding SARs or Tandem SARs, or any combination thereof.
- (a) *Number of Shares.* The Committee shall have complete discretion to determine the number of SARs granted to any Participant, subject to the limitations imposed in this Plan and by applicable law.
 - (b) *Exercise Price and Other Terms.* The Committee, subject to the provisions of this Plan, shall have complete discretion to determine the terms and conditions of SARs granted under this Plan. The exercise price per Share of Tandem SARs shall equal the exercise price per Share of the related Option. In no event shall a SAR granted to a Section 16 Person become exercisable until at least six (6)

months after the Date of Grant or such shorter period as may be permissible while maintaining compliance with Rule 16b-3.

- 7.02 *SAR Award Agreement.* Each SAR granted under the Plan shall be evidenced by a written SAR Award Agreement which shall be entered into by the Company and the Participant to whom the SAR is granted (the “SAR Holder”), and which shall specify the exercise price per share, the terms of the SAR, the conditions of exercise, and such other terms and conditions as the Committee in its sole discretion shall determine.
- 7.03 *Exercise of Tandem SARs.* Tandem SARs may be exercised for all or part of the Shares subject to the related Option upon the surrender of the right to exercise the equivalent portion of the related Option. A Tandem SAR may be exercised only with respect to the Shares for which its related Option is then exercisable. With respect to a Tandem SAR granted in connection with an Incentive Stock Option: (a) the Tandem SAR shall expire no later than the expiration of the underlying Incentive Stock Option; (b) the value of the payout with respect to the Tandem SAR shall be for no more than one hundred percent (100%) of the difference between the Exercise Price per Share of the underlying Incentive Stock Option and the Fair Market Value per Share of the Shares subject to the underlying Incentive Stock Option at the time the Tandem SAR is exercised; and (c) the Tandem SAR shall be exercisable only when the Fair Market Value per Share of the Shares subject to the Incentive Stock Option exceeds the per share Option Price per Share of the Incentive Stock Option.
- 7.04 *Exercise of Freestanding SARs.* Freestanding SARs shall be exercisable on such terms and conditions as the Committee in its sole discretion shall determine; provided, however, that no Freestanding SAR granted to a Section 16 Person shall be exercisable until at least six (6) months after the Date of Grant or such shorter period as may be permissible while maintaining compliance with Rule 16b-3.
- 7.05 *Expiration of SARs.* A SAR granted under this Plan shall expire on the date set forth in the SAR Award Agreement, which date shall be determined by the Committee in its sole discretion. Unless otherwise specifically provided for in the SAR Award Agreement, a Freestanding SAR granted under this Plan shall terminate according to the same rules under which a Nonqualified Stock Option would terminate in the event of a SAR Holder’s termination of employment, death or Disability as provided for in the SAR Award Agreement. Unless otherwise specifically provided for in the SAR Award agreement, a Tandem SAR granted under this Plan shall be exercisable at such time or times and only to the extent that the related Option is exercisable. The Tandem SAR shall terminate and no longer be exercisable upon the termination or exercise of the related Options, except that Tandem SARs granted with respect to less than the full number of shares covered by a related Option shall not be reduced until the exercise or termination of the related Option exceeds the number of Shares not covered by the SARs.
- 7.06 *Payment of SAR Amount.* Upon exercise of a SAR, a Holder shall be entitled to receive payment from the Company in an amount determined by multiplying (i) the positive difference between the Fair Market Value of a Share on the date of exercise over the exercise price per Share by (ii) the number of Shares with respect to which the SAR is

exercised. The payment upon a SAR exercise may be in whole Shares of equivalent value, cash, or a combination of whole Shares and cash. Fractional Shares shall be rounded down to the nearest whole Share.

VIII. AWARDS OF RESTRICTED STOCK AND RESTRICTED STOCK UNITS

- 8.01 *Restricted Stock Awards Granted by Committee.* Coincident with or following designation for participation in the Plan and subject to the terms and provisions of the Plan, the Committee, at any time and from time to time, may grant Restricted Stock to any Service Provider in such amounts as the Committee shall determine.
- 8.02 *Restricted Stock Unit Awards Granted by Committee.* Coincident with or following designation for participation in the Plan and subject to the terms and provisions of the Plan, the Committee may grant a Service Provider Restricted Stock Units, in connection with or separate from a grant of Restricted Stock. Upon the vesting of Restricted Stock Units, the Holder shall be entitled to receive the full value of the Restricted Stock Units payable in either Shares or cash.
- 8.03 *Restrictions.* A Holder's right to retain Shares of Restricted Stock or be paid with respect to Restricted Stock Units shall be subject to such restrictions, including but not limited to, him or her continuing to perform as a Service Provider for a restriction period specified by the Committee, or the attainment of specified performance goals and objectives, as may be established by the Committee with respect to such Award. The Committee may in its sole discretion require different periods of service or different performance goals and objectives with respect to (i) different Holders, (ii) different Restricted Stock or Restricted Stock Unit Awards, or (iii) separate, designated portions of the Shares constituting a Restricted Stock Award. Any grant of Restricted Stock or Restricted Stock Units shall contain terms such that the Award is either exempt from Code section 409A or complies with such section.
- 8.04 *Privileges of a Stockholder, Transferability.* Unless otherwise provided in the Award Agreement, a Participant shall have all voting, dividend, liquidation and other rights with respect to Shares of Restricted Stock, provided however that any dividends paid on Shares of Restricted Stock prior to such Shares becoming vested shall be held in escrow by the Company and subject to the same restrictions on transferability and forfeitability as the underlying Shares of Restricted Stock. Any voting, dividend, liquidation or other rights shall accrue to the benefit of a Holder only with respect to Shares of Restricted Stock held by, or for the benefit of, the Holder on the record date of any such dividend or voting date. A Participant's right to sell, encumber or otherwise transfer such Restricted Stock shall, in addition to the restrictions otherwise provided for in the Award Agreement, be subject to the limitations of Section 12.02 hereof. The Committee may determine that a Holder of Restricted Stock Units is entitled to receive dividend equivalent payments on such units. If the Committee determines that Restricted Stock Units shall receive dividend equivalent payments, such feature will be specified in the applicable Award Agreement. Restricted Stock Units shall not have any voting rights.

- 8.05 *Enforcement of Restrictions.* The Committee may in its sole discretion require one or more of the following methods of enforcing the restrictions referred to in Sections 8.03 and 8.04:
- (a) placing a legend on the stock certificates, or the Restricted Stock Unit Award Agreement, as applicable, referring to restrictions;
 - (b) requiring the Holder to keep the stock certificates, duly endorsed, in the custody of the Company while the restrictions remain in effect;
 - (c) requiring that the stock certificates, duly endorsed, be held in the custody of a third party nominee selected by the Company who will hold such Shares of Restricted Stock on behalf of the Holder while the restrictions remain in effect; or
 - (d) inserting a provision into the Restricted Stock Award Agreement prohibiting assignment of such Award Agreement until the terms and conditions or restrictions contained therein have been satisfied or released, as applicable.
- 8.06 *Termination of Service, Death, Disability, etc.* Except as otherwise provided in an Award Agreement, in the event of the death or Disability of a Participant, all service period and other restrictions applicable to Restricted Stock Awards then held by him or her shall lapse, and such Awards shall become fully nonforfeitable. Subject to Section 11 and except as otherwise provided in an Award Agreement, in the event a Participant ceases to be a Service Provider for any other reason, any Restricted Stock Awards as to which the service period or other vesting conditions have not been satisfied shall be forfeited.

IX. PERFORMANCE SHARES AND PERFORMANCE UNITS

- 9.01 *Awards Granted by Committee.* Coincident with or following designation for participation in the Plan, a Participant may be granted Performance Shares or Performance Units.
- 9.02 *Amount of Award.* The Committee shall establish a maximum amount of a Holder's Award, which amount shall be denominated in Shares in the case of Performance Shares or in dollars in the case of Performance Units.
- 9.03 *Communication of Award.* Written notice of the maximum amount of a Holder's Award and the Performance Period determined by Committee shall be given to a Participant as soon as practicable after approval of the Award by the Committee.
- 9.04 *Amount of Award Payable.* The Committee shall establish maximum and minimum performance targets to be achieved during the applicable Performance Period. Performance targets established by the Committee shall relate to corporate, group, unit or individual performance and may be established in terms of (i) specified levels of earnings per share from continuing operations, (ii) operating income, (iii) revenues, (iv) gross margin, (v) return on operating assets (whether all assets or designated assets), (vi)

return on equity, (vii) economic value added, (viii) stock price appreciation, (ix) total stockholder return (measured in terms of stock price appreciation and dividend growth), (x) net income, (xi) debt reduction, (xii) cost control, or (xiii) such other measures or standards determined by the Committee. Multiple performance targets may be used and the components of multiple performance targets may be given the same or different weighting in determining the amount of an Award earned, and may relate to absolute performance or relative performance measured against other groups, units, individual or entities. Achievement of the maximum performance target shall entitle the Holder to payment (subject to Sections 9.05, 9.06 and 9.07) at the full or maximum amount specified with respect to the Award: provided, however, that notwithstanding any other provisions of this Plan, in the case of an Award of Performance Shares the Committee in its discretion may establish an upper limit on the amount payable (whether in cash or Stock) as a result of the achievement of the maximum performance target. The Committee may also establish that a portion of a full or maximum amount of a Holder's Award will be paid (subject to Section 9.05, 9.06 and 9.07) for performance which exceeds the minimum performance target but falls below the maximum performance target applicable to such Award.

- 9.05 *Adjustments.* At any time prior to payment of a Performance Share or Performance Unit Award, the Committee may adjust previously established performance targets or other terms and conditions to reflect events such as changes in law, regulations, or accounting practice, or mergers acquisitions or divestitures.
- 9.06 *Payment of Awards.* Following the conclusion of each Performance Period, the Committee shall determine the extent to which performance targets have been attained, and the satisfaction of any other terms and conditions with respect to an Award relating to such Performance Period. The Committee shall determine what, if any, payment is due with respect to an Award and whether such payment shall be made in cash, Stock or some combination, as determined by the Committee. Payment shall be made in a lump sum, during the calendar year that first follows the end of the calendar year in which the applicable Performance Period ends.
- 9.07 *Termination of Employment.* If a Participant ceases to be a Service Provider for any reason other than having been terminated for Cause after the end of a Performance Period yet before receiving payment as provided for in Section 9.06, the Holder (or the Holder's Beneficiaries) shall be entitled to receive the full amount of such payment. If a Holder ceases to be a Service Provider before the end of a Performance Period by reason of his or her death or Disability, the Performance Period for such Holder for the purpose of determining the amount of the Award payable shall end at the end of the calendar quarter immediately preceding the date on which such Holder ceased to be a Service Provider. The amount of an Award payable to a Holder to whom the preceding sentence is applicable shall be paid in a lump sum, during the calendar year that first follows the end of the calendar year in which the applicable Performance Period would have ended but for the Holder's cessation as a Service Provider and shall be that fraction of the Award computed pursuant to the preceding sentence the numerator of which is the number of calendar quarters during the Performance Period during all of which said Holder was a

Service Provider and the denominator of which is the number of full calendar quarters in the Performance Period. In the event a Holder is terminated as a Service Provider for Cause, either before the end of the Performance Period or after the end of the Performance Period but prior to the amount of the Award having been paid, the Holder's participation in the Plan shall cease, all outstanding Awards of Performance Shares or Performance Units to such Participant and any right to receive the payment for any Awards (whether or not any Performance Period has been completed) shall be canceled.

X. BONUS SHARES

Subject to the terms of the Plan, the Committee may grant Bonus Shares to any Participant in such amount and upon such terms and at any time and from time to time as shall be determined by the Committee. The Committee may grant such Bonus Shares in connection with or pursuant to another Company-sponsored compensation plan or program.

XI. REORGANIZATION, CHANGE IN CONTROL OR LIQUIDATION

- 11.01 Except as otherwise provided in an Award Agreement or other agreement approved by the Committee to which any Participant is a party, in the event that within the period commencing on a Change in Control and ending on the first anniversary of the Change in Control, a Participant resigns for Good Reason or the Company terminates the Participant's employment other than for cause, each Option, share of Restricted Stock and/or other Award shall without regard to any vesting schedule, restriction or performance target, automatically become fully exercisable, fully vested or fully payable, as the case may be, as of the date of such termination of employment; provided, however, to the extent required by Code section 409A, if the Participant was a "specified employee" as defined under Code section 409A as of the time of such Participant's separation from service, no share of Restricted Stock or other Award shall become payable until six months and one day from the effective date of such Participant's separation from service.
- 11.02 In addition to the foregoing, in the event the Company undergoes a Change in Control or in the event of a corporate merger, consolidation, major acquisition of property (or stock), separation, reorganization or liquidation in which the Company is a party and in which a Change in Control does not occur, the Committee, or the board of directors of any corporation assuming the obligations of the Company, shall have the full power and discretion to take any one or more of the following actions:
- (a) Without reducing the economic value of outstanding Awards, prescribe and amend the terms and conditions for the exercise of, or settlement of, outstanding Awards granted hereunder;
 - (b) Remove restrictions on Restricted Stock, Restricted Stock Units or, as applicable, Performance Award;

- (c) Provide that Options or SARs granted hereunder must be exercised in connection with the closing of such transactions, and that if not so exercised such Options or SARs will expire; or
- (d) Cause any Award then outstanding to be assumed, or new rights of equivalent economic value substituted therefore, by the acquiring or surviving corporation.

Any such determinations by the Committee may be made generally with respect to all Participants, or may be made on a case-by-case basis with respect to particular Participants. Notwithstanding the foregoing, any transaction undertaken for the purpose of reincorporating the Company under the laws of another jurisdiction, if such transaction does not materially affect the beneficial ownership of the Company's Shares, such transaction shall not constitute a merger, consolidation, major acquisition of property for stock, separation, reorganization, liquidation, or Change in Control.

XII. RIGHTS OF EMPLOYEES; PARTICIPANTS

- 12.01 *Employment.* Nothing contained in the Plan or in any Award granted under the Plan shall confer upon any Participant any right with respect to the continuation of his or her services as a Service Provider or interfere in any way with the right of the Company, subject to the terms of any separate employment or consulting agreement to the contrary, at any time to terminate such services or to increase or decrease the compensation of the Participant from the rate in existence at the time of the grant of an Award. Whether an authorized leave of absence, or absence in military or government service, shall constitute a termination of Participant's services as a Service Provider shall be determined by the Committee at the time.
- 12.02 *Nontransferability.* Except as provided in Section 12.03, no right or interest of any Holder in an Award granted pursuant to the Plan shall be assignable or transferable during the lifetime of the Participant, either voluntarily or involuntarily, or be subjected to any lien, directly or indirectly, by operation of law, or otherwise, including execution, levy, garnishment, attachment, pledge or bankruptcy. In the event of a Participant's death, a Holder's rights and interests in all Awards shall, to the extent not otherwise prohibited hereunder, be transferable by testamentary will or the laws of descent and distribution, and payment of any amounts due under the Plan shall be made to, and exercise of any Options or SARs may be made by, the Holder's legal representatives, heirs or legatees. If, in the opinion of the Committee, a person entitled to payments or to exercise rights with respect to the Plan is disabled from caring for his or her affairs because of a mental condition, physical condition or age, payment due such person may be made to, and such rights shall be exercised by, such person's guardian, conservator, or other legal personal representative upon furnishing the Committee with evidence satisfactory to the Committee of such status. "Transfers" shall not be deemed to include transfers to the Company or "cashless exercise" procedures with third parties who provide financing for the purpose of (or who otherwise facilitate) the exercise of Awards consistent with applicable laws and the authorization of the Committee.

12.03 *Permitted Transfers.* Pursuant to conditions and procedures established by the Committee from time to time, the Committee may permit Awards to be transferred to, exercised by and paid to certain persons or entities related to a Participant, including but not limited to members of the Participant's immediate family, charitable institutions, or trusts or other entities whose beneficiaries or beneficial owners are members of the Participant's immediate family and/or charitable institutions (a "Permitted Transferee"). In the case of initial Awards, at the request of the Participant, the Committee may permit the naming of the related person or entity as the Award recipient. Any permitted transfer shall be subject to the condition that the Committee receive evidence satisfactory to it that the transfer is being made for estate and/or tax planning purposes on a gratuitous or donative basis and without consideration (other than nominal consideration). Notwithstanding the foregoing, Incentive Stock Options shall only be transferable to the extent permitted in section 422 of the Code, or such successor provision thereto, and the treasury regulations thereunder.

XIII. GENERAL RESTRICTIONS

13.01 *Investment Representations.* The Company may require any person to whom an Option or other Award is granted, as a condition of exercising such Option or receiving Stock under the Award, to give written assurances in substance and form satisfactory to the Company and its counsel to the effect that such person is acquiring the Stock subject to the Option or the Award for his own account for investment and not with any present intention of selling or otherwise distributing the same, and to such other effects as the Company deems necessary or appropriate in order to comply with federal and applicable state securities laws. Legends evidencing such restrictions may be placed on the certificates evidencing the Stock.

13.02 *Compliance with Securities Laws.*

- (a) Each Award shall be subject to the requirement that, if at any time counsel to the Company shall determine that the listing, registration or qualification of the Shares subject to such Award upon any securities exchange or under any state or federal law, or the consent or approval of any governmental or regulatory body, is necessary as a condition of, or in connection with, the issuance or purchase of Shares thereunder, such Award may not be accepted or exercised in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained on conditions acceptable to the Committee. Nothing herein shall be deemed to require the Company to apply for or to obtain such listing, registration or qualification.
- (b) Each Holder who is a director or an Executive Officer is restricted from taking any action with respect to any Award if such action would result in a (i) violation of Section 306 of the Sarbanes-Oxley Act of 2002, and the regulations promulgated thereunder, whether or not such law and regulations are applicable to the Company, or (ii) any policies adopted by the Company restricting transactions in the Stock.

- 13.03 *Stock Restriction Agreement.* The Committee may provide that Shares issuable upon the exercise of an Option shall, under certain conditions, be subject to restrictions whereby the Company has (i) a right of first refusal with respect to such shares, (ii) specific rights or limitations with respect to the Participant's ability to vote such shares, or (iii) a right or obligation to repurchase all or a portion of such shares, which restrictions may survive a Participant's cessation or termination as a Service Provider.
- 13.04 *Prohibition on Repricings.* Except in connection with a corporate transaction involving the Company (including, without limitation, any stock dividend, stock split, extraordinary cash dividend, recapitalization, reorganization, merger, consolidation, split-up, spin-off, combination, or exchange of shares), the terms of outstanding Options or SARs may not be amended to reduce the exercise price of outstanding Options or SARs or cancel outstanding Options or SARs in exchange for other Options or SARs with an exercise price that is less than the exercise price of the original Options or SARs without stockholder approval.

XIV. OTHER EMPLOYEE BENEFITS

The amount of any compensation deemed to be received by a Participant as a result of the exercise of an Option or the grant, payment or vesting of any other Award shall not constitute "earnings" with respect to which any other benefits of such Participant are determined, including without limitation benefits under (a) any pension, profit sharing, life insurance or salary continuation plan or other employee benefit plan of the Company or (b) any agreement between the Company and the Participant, except as such plan or agreement shall otherwise expressly provide.

XV. PLAN AMENDMENT, MODIFICATION AND TERMINATION

- 15.01 *Amendment, Modification, and Termination.* The Board may at any time terminate, and from time to time may amend or modify, the Plan; provided, however, that no amendment or modification may become effective without approval of the amendment or modification by the stockholders if stockholder approval is required to enable the Plan to satisfy any applicable statutory or regulatory requirements, to comply with the requirements for listing on any exchange where the Shares are listed, or if the Company, on the advice of counsel, determines that stockholder approval is otherwise necessary or desirable.
- 15.02 *Adjustment Upon Certain Unusual or Nonrecurring Events.* The Board may make adjustments in the terms and conditions of Awards in recognition of unusual or nonrecurring events (including the events described in Section 4.03) affecting the Company or the financial statements of the Company or of changes in applicable laws, regulations, or accounting principles, whenever the Board determines that such adjustments are appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan.
- 15.03 *Awards Previously Granted.* Notwithstanding any other provision of the Plan to the contrary (but subject to Section 2.01(i) and Section 15.02), no termination, amendment or

modification of the Plan shall adversely affect in any material way any Award previously granted under the Plan, without the written consent of the Holder of such Award.

XVI. WITHHOLDING

- 16.01 *Withholding Requirement.* The Company's obligations to deliver Shares upon the exercise of an Option, or upon the vesting of any other Award, shall be subject to the Holder's satisfaction of all applicable federal, state and local income and other tax withholding requirements.
- 16.02 *Withholding with Stock.* For Eligible Employees, the Company may permit the Holder to pay all minimum required amounts of tax withholding, or any part thereof, by electing to transfer to the Company, or to have the Company withhold from Shares otherwise issuable to the Holder, Shares having a value not to exceed the minimum amount required to be withheld under federal, state or local law or such lesser amount as may be elected by the Holder. For non-employees, including non-employee directors, the Company may also permit the Holder to transfer to the Company or have the Company withhold from Shares otherwise issuable to the Holder, an amount of Shares determined by the Holder necessary to cover applicable federal, state or local income or self-employment taxes relating to the exercise, vesting or payment of the Award. All elections shall be subject to the approval or disapproval of the Committee or its delegate. The value of Shares to be withheld shall be based on the Fair Market Value of the Stock on the date that the amount of tax to be withheld is to be determined (the "Tax Date"), as determined by the Committee. Any such elections by Holder to have Shares withheld for this purpose will be subject to the following restrictions:
- (a) All elections must be made prior to the Tax Date;
 - (b) All elections shall be irrevocable; and
 - (c) If the Holder is an officer or director of the Company within the meaning of Section 16 of the 1934 Act ("Section 16"), the Holder must satisfy the requirements of such Section 16 and any applicable rules thereunder with respect to the use of Stock to satisfy such tax withholding obligation.

XVII. SECTION 162(m) PROVISIONS

- 17.01 *Limitations.* Notwithstanding any other provision of this Plan, if the Committee determines at the time any Award is granted to a Participant that such Participant is, or is likely to be at the time he or she recognizes income for federal income tax purposes in connection with such Award, a Covered Employee, then the Committee may provide that this Section 17 is applicable to such Performance Award.
- 17.02 *Performance Goals.* If a Performance Award is subject to this Section 17, then the lapsing of restrictions thereon and the distribution of cash, Shares or other property pursuant thereto, as applicable, shall be subject to the achievement of one or more

objective performance goals established by the Committee, which shall be based on the attainment of one or any combination of the following:

- (a) Earnings (either in the aggregate or on a per-Share basis);
- (b) Growth or rate of growth in earnings (either in the aggregate or on a per Share basis);
- (c) Net income or loss (either in the aggregate or on a per-Share basis);
- (d) Cash flow provided by operations, either in the aggregate or on a per-Share basis;
- (e) Growth or rate of growth in cash flow (either in the aggregate or on a per Share basis);
- (f) Free cash flow (either in the aggregate on a per-Share basis);
- (g) Reductions in expense levels, determined either on a Corporation-wide basis or in respect of any one or more business units;

- (n) Achievement of business or operational goals such as market share and/or business development;

provided that applicable incentive goals may be applied on a pre- or post-tax basis; and provided further that the Committee may, when the applicable incentive goals are established, provide that the formula for such goals may include or exclude items to measure specific objectives, such as losses from discontinued operations, extraordinary gains or losses, the cumulative effect of accounting changes, acquisitions or divestitures, foreign exchange impacts and any unusual, nonrecurring gain or loss. In addition to the

- 17.04 *Other Restrictions.* The Committee shall have the power to impose such other restrictions on Awards subject to this Section 17 as it may deem necessary or appropriate to insure that such Awards satisfy all requirements for "performance-based compensation" within the meaning of section 162(m)(4)(B) of the Code or any successor thereto.

XVIII. NONEXCLUSIVITY OF THE PLAN

- 18.01 Neither the adoption of the Plan by the Board nor the submission of the Plan to stockholders of the Company for approval shall be construed as creating any limitations on the power or authority of the Board to continue to maintain or adopt such other or additional incentive or other compensation arrangements of whatever nature as the Board may deem necessary or desirable or preclude or limit the continuation of any other plan, practice or arrangement for the payment of compensation or fringe benefits to employees, or non-employee directors generally, or to any class or group of employees, or non-employee directors, which the Company now has lawfully put into effect, including, without limitation, any retirement, pension, savings and stock purchase plan, insurance, death and disability benefits and executive short-term incentive plans.

XIX. REQUIREMENTS OF LAW

- 19.01 *Requirements of Law.* The issuance of Stock and the payment of cash pursuant to the Plan shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies or stock exchanges as may be required. Notwithstanding any provision of the Plan or any Award, Holders shall not be entitled to exercise, or receive benefits under any Award, and the Company shall not be obligated to deliver any Shares or other benefits to a Holder, if such exercise or delivery would constitute a violation by the Holder or the Company of any applicable law or regulation.
- 19.02 *Code Section 409A.* This Plan is intended to meet or to be exempt from the requirements of Code section 409A, and shall be administered, construed and interpreted in a manner that is in accordance with and in furtherance of such intent. Any provision of this Plan that would cause an Award to fail to satisfy Code section 409A or, if applicable, an exemption from the requirements of that Section, shall be amended (in a manner that as

closely as practicable achieves the original intent of this Plan) to comply with Code section 409A or any such exemption on a timely basis, which may be made on a retroactive basis, in accordance with regulations and other guidance issued under Code section 409A.

19.03 *Rule 16b-3*. Transactions under the Plan and to the extent even applicable, within the scope of Rule 16b-3 are intended to comply with all applicable conditions of Rule 16b-3. To the extent any provision of the Plan or any action by the Committee under the Plan fails to so comply, such provision or action shall, without further action by any person, be deemed to be automatically amended to the extent necessary to effect compliance with Rule 16b-3; provided, however, that if such provision or action cannot be amended to effect such compliance, such provision or action shall be deemed null and void to the extent permitted by law and deemed advisable by the Committee.

19.04 *Governing Law*. The Plan and all agreements hereunder shall be construed in accordance with and governed by the laws of the State of Delaware without giving effect to the principles of the conflict of laws to the contrary.
