Forward Looking Statements

Statements contained in this news release that concern Euronet's or its management's intentions, expectations, or predictions of future performance, are forward-looking statements. Euronet's actual results may vary materially from those anticipated in such forward-looking statements as a result of a number of factors, including: conditions in world financial markets and general economic conditions, including the effects in Europe of the Brexit vote and economic conditions in specific countries or regions; the effects of demonetization in India; technological developments affecting the market for the Company's products and services; foreign currency exchange rate fluctuations; the effects of any breaches in the security of our computer systems or those of our customers or vendors; the Company's ability to renew existing contracts at profitable rates; changes in fees payable for transactions performed for cards bearing international logos or over switching networks such as card transactions on ATMs; Visa's announced rule change to allow our ATMs to provide dynamic currency conversion beginning mid-April 2019; impacts of new DCC disclosures in Europe; impacts of shares issuable under the Company's convertible bonds; application of or changes to compliance regulations; changes in the Company's relationship with, or in fees charged by, the Company's business partners; competition; the outcome of claims and other loss contingencies affecting the Company; and changes in laws and regulations affecting the Company's business, including tax, immigration and data privacy laws. These risks and other risks are described in the Company's filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Copies of these filings may be obtained via the SEC's Edgar website or by contacting the Company or the SEC. Any forward-looking statements made in this release speak only as of the date of this release. Except as may be required by law, Euronet does not intend to update these forward-looking statements and undertakes no duty to any person to provide any such update under any circumstances. The Company regularly posts important information to the investor relations section of its website.

Defined Terms

Unless specifically noted otherwise within this presentation, the following terms are hereby defined as follows:

Constant currency measures are computed as if foreign currency exchange rates did not change from the prior period. This information is provided to illustrate the impact of changes in foreign currency exchange rates on the Company's results when compared to the prior period.

Adjusted operating income is defined as operating income excluding expenses related to the proposed MoneyGram acquisition, a one-time post-acquisition charge and impairment charges.

Adjusted EBITDA is defined as net income excluding interest, income tax expense, depreciation, amortization, expenses related to the proposed MoneyGram acquisition, share-based compensation expenses, a one-time post-acquisition charge, impairment charges and other non-operating or non-recurring items that are considered expenses or income under U.S. GAAP. Adjusted EBITDA represents a performance measure and is not intended to represent a liquidity measure.

Adjusted earnings per share (Adjusted EPS) is defined as diluted U.S. GAAP earnings per share excluding, to the extent incurred in the period, the tax-effected impacts of: a) foreign currency exchange gains or losses, b) goodwill or intangible asset impairment charges, c) gains or losses from the early retirement of debt, d) share-based compensation, e) acquired intangible asset amortization, f) expenses related to the proposed MoneyGram acquisition g) non-cash interest expense, h) non-cash income tax expense, i) the impact of the tax reform legislation passed in 2017, j) a one-time post-acquisition charge and k) other non-operating or non-recurring items. Adjusted earnings per share represents a performance measure and is not intended to represent a liquidity measure.

The reconciliation of non-GAAP items is included in the attached supplemental data.

The Company does not provide a reconciliation of its forward-looking non-GAAP measures to GAAP due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for GAAP and the related GAAP to non-GAAP reconciliation, including adjustments that could be made for currency exchange rate fluctuations and other charges reflected in the Company's reconciliation of historic numbers, the amount of which, based on historical experience, could be significant.

Summary & Outlook

- Fourth quarter Adjusted EPS of \$1.37 – a 21% year-over-year increase
- EFT benefitted from 3,800 high-value ATMs deployed throughout the year and the continued expansion of value added transactions across our networks
- The epay Segment continues to grow its non-mobile product offering
- Money Transfer continued to deliver strong double-digit growth across all metrics, highlighted by growth in both the physical and digital channels
- Technology investments focused on digital-based commerce and transactions is playing a leading role in growth across Euronet's product portfolio to address significant addressable markets for all three segments
- The generation of free cash contributes to our continued balance sheet strengthening, and
- We expect first quarter Adjusted EPS to be approximately \$0.83, assuming consistent foreign currency exchange rates and share price

Supplemental Data

In addition to the results presented in accordance with U.S. GAAP, the Company presents non-GAAP financial measures, such as constant currency, adjusted operating income, adjusted EBITDA and adjusted earnings per share. These measures should be used in addition to, and not a substitute for, revenues, net income, operating income and earnings per share computed in accordance with U.S. GAAP. We believe that these non-GAAP measures provide useful information to investors regarding the Company's performance and overall results of operations. These non-GAAP measures are also an integral part of the Company's internal reporting and performance assessment for executives and senior management. The non-GAAP measures used by the Company may not be comparable to similarly titled non-GAAP measures used by other companies. The attached schedules provide a full reconciliation of these non-GAAP financial measures to their most directly comparable U.S. GAAP financial measure.
