

Euronet & NCR Complete Software Installation for Old National Bancorp

LITTLE ROCK, Arkansas (April 7, 2010) - Euronet USA (Euronet), the software division of Euronet Worldwide, Inc. (NASDAQ: EEFT) - a leading electronic payments provider - and NCR Corporation, a leading ATM manufacturer and technology company, today announced the completion of a collaborative software project where NCR's APTRA™ Edge Solution was installed on more than 50 terminals for Old National Bancorp, the largest financial services holding company headquartered in Indiana.

APTRA Edge interfaces with Euronet's Integrated Transaction Management (ITM) Payments Hub which Old National utilizes for its electronic payment transactions. Old National has been a Euronet customer since 1992.

"We are excited about the new services our customers can now enjoy at the ATM with the APTRA Edge application," said Reggie Dewig, Vice President of eBusiness ATM Solutions for Old National. "With the expertise and support of both Euronet and NCR, the installation of this solution has been a success."

APTRA Edge is a highly flexible self-service application that can drive transactions across Windows-based ATMs. Old National will benefit from the solution's functionality for cash dispense, receipt print, bill payment, multi-language support and envelope deposit. Features include a ready-to-use set of standard ATM transactions, rich multimedia presentation and the option to easily add new services.

With APTRA Edge now installed, Old National will also have the option to add advanced applications such as intelligent cash and check deposits which includes capturing an image of the check and printing it on the receipt.

"We are very pleased with the success of this project as well as with the opportunity to provide additional solutions to Old National," said Larry Randall, Self Service Consultant at NCR. "To ensure the seamless integration of our solution with Old National's existing environment, we worked very closely with Euronet testing and installing the application."

"We have enjoyed a solid and long-standing partnership with Old National for almost 20 years, and we are happy to partner with and support vendor solutions that our customers can benefit from when designing, managing and upgrading their ATM networks," said Cindy Ashcraft, Managing Director for Euronet.

About NCR Corporation

NCR Corporation (NYSE: NCR) is a global technology company and leader in automated teller machines, self-checkouts and other self- and assisted-service solutions, serving customers in more than 100 countries. NCR's software, hardware, consulting and support services help organizations in retail, financial, entertainment, travel, healthcare and other industries interact with consumers across multiple channels.

About Old National Bancorp

Old National Bancorp has \$8 billion in assets and ranks among the top 100 banking companies in the United States.
