

Euronet announces ING ATM Network Participation deal in Spain

February 25, 2019

LEAWOOD, Kan., Feb. 25, 2019 (GLOBE NEWSWIRE) -- Euronet Worldwide, Inc. (NASDAQ: EFFT), a leading global electronic payments provider, announces an agreement with ING Bank N.V., SUCURSAL EN ESPAÑA ("ING") to provide ATM Network Participation Services in Spain. Under the agreement ING will enjoy seamless access to Euronet's growing ATM Network in Spain, significantly increasing ING customer reach in the off-site ATM market. By partnering with Euronet, ING will add more than 2,000 ATMs to its network.

Under the terms of the agreement, Euronet will ensure seamless integration with ING, that will allow for a personalized user experience for the bank's customers, who will enjoy the same look-and-feel and withdrawal-transaction flow. In addition, Euronet will ensure proper ATM co-branding and signage implementations, with the ING brand being visible throughout Euronet's ATM network in Spain.

The agreement demonstrates Euronet's commitment to shared Independent ATM/ADT Networks, which focuses on the rationalization and expansion of the ATM network to benefit both Financial Institutions (FI's) and the end consumer. FI's extend their digital offerings to the physical world and enjoy immediate benefits with an increased ATM footprint, with direct cost advantages, while ensuring business continuity for their customer base. Consumers enjoy cash services that are available on a 24x7 basis across the country at a time and place of their convenience.

"We are excited to partner with ING, an innovative and forward-looking financial institution, to enable our ATM Network Participation Services, to the benefit of ING and ING's customers. With our unmatched investments in technology and a pan European network that spans across 25 countries, we enable digital connectivity between the digital consumer with the world of cash and networked physical assets," stated Nikos Fountas, Executive Vice President and Chief Executive Officer, EMEA EFT Processing Segment.
