

Euronet Worldwide Reports First Quarter 2019 Financial Results

April 30, 2019

LEAWOOD, Kan., April 29, 2019 (GLOBE NEWSWIRE) -- Euronet Worldwide, Inc. ("Euronet" or the "Company") (NASDAQ: EFFT), a leading electronic payments provider, reports first quarter 2019 financial results.

Euronet reports the following consolidated results for the first quarter 2019 compared with the same period of 2018:

- Revenues of \$577.5 million, a 5% increase from \$550.5 million (11% increase on a constant currency⁽¹⁾ basis).
- Operating income of \$56.1 million, a 23% increase from \$45.5 million (31% increase on a constant currency basis).
- Adjusted EBITDA⁽²⁾ of \$87.2 million, a 15% increase from \$75.5 million (23% increase on a constant currency basis).
- Net income attributable to Euronet of \$34.5 million or \$0.62 diluted earnings per share, compared with net income of \$26.4 million or \$0.49 diluted earnings per share.
- Adjusted earnings per share⁽³⁾ of \$0.85, a 16% increase from \$0.73.
- Transactions of 1.06 billion, a 17% increase from 904 million.

"I am pleased we were able to deliver Adjusted Earnings per Share of \$0.85, a 16% year-over-year increase," stated Michael J. Brown, Euronet's Chairman and Chief Executive Officer. "This strong growth includes double-digit constant currency earnings contributions from all three segments, while continuing to invest in network expansion across all three segments. EFT growth was the result of continued ATM and product deployments. Money Transfer delivered a strong quarter with continued success in both physical and digital channels. And, epay continued to benefit from digital media growth, formerly referred to as non-mobile content."

See the reconciliation of non-GAAP items in the attached financial schedules.

Segment and Other Results

The EFT Processing Segment reports the following results for the first quarter 2019 compared with the same period or date in 2018:

- Revenues of \$145.7 million, a 7% increase from \$135.7 million (16% increase on a constant currency basis).
- Operating income of \$16.8 million, a 46% increase from \$11.5 million (54% increase on a constant currency basis).
- Adjusted EBITDA of \$33.4 million, a 21% increase from \$27.7 million (29% increase on a constant currency basis).
- Transactions of 692 million, an 11% increase from 622 million.
- Operated 42,034 ATMs as of March 31, 2019, a 10% increase from 38,358.

Double-digit constant currency revenue, operating income and adjusted EBITDA growth was largely the result of a 10% year-over-year increase in active ATMs and an 11% increase in transactions. The increase in transactions was primarily from growth in Europe and India - including an increase in traditional cash withdrawals as well as the number of value-added transactions, such as dynamic currency conversion, domestic and international surcharge, and foreign currency dispensing transactions - on both ATMs and point-of-sale terminals.

The epay Segment reports the following results for the first quarter 2019 compared with the same period or date in 2018:

- Revenues of \$176.1 million, essentially no change from \$176.8 million (6% increase on a constant currency basis).
- Operating income of \$18.0 million, a 7% increase from \$16.9 million (15% increase on a constant currency basis).
- Adjusted EBITDA of \$19.8 million, a 5% increase from \$18.8 million (13% increase on a constant currency basis).
- Transactions of 338 million, a 31% increase from 258 million.
- Point-of-sale ("POS") terminals of approximately 707,000 as of March 31, 2019, a 4% increase from approximately 680,000.
- Retailer locations of approximately 332,000 as of March 31, 2019, a 4% increase from approximately 318,000.

In the first quarter 2019, the epay Segment adopted the term digital media to refer to the breadth of content outside of mobile. This new term more appropriately reflects epay's success over the last few years to reinvent the business as it relates to the product mix shift towards digital content.

epay constant currency revenue, operating income and adjusted EBITDA growth was primarily from continued digital media growth.

Transaction growth was the result of increases across Europe and strong contributions from India, which included a large volume of low-margin mobile transactions.

epay terminal and location counts have been restated in both the current and prior periods to eliminate intra-segment counts.

The Money Transfer Segment reports the following results for the first quarter 2019 compared with the same period or date in 2018:

- Revenues of \$256.6 million, a 7% increase from \$238.9 million (11% increase on a constant currency basis).

- Operating income of \$30.7 million, a 16% increase from \$26.5 million (22% increase on a constant currency basis).
- Adjusted EBITDA of \$38.8 million, a 13% increase from \$34.4 million (18% increase on a constant currency basis).
- Total transactions of 26.6 million, a 10% increase from 24.3 million.
- Network locations of approximately 377,000 as of March 31, 2019, an 8% increase from approximately 350,000.

Double-digit constant currency revenue, operating income and adjusted EBITDA growth was driven by strong growth across most sectors of the money transfer business, including both physical and digital transfers.

Money transfers grew 10% and non-transfer transactions, such as currency exchange and check cashing, grew 5%, resulting in total transaction growth of 10%.

Corporate and Other reports \$9.4 million of expense for both the first quarter 2019 and the first quarter 2018.

Balance Sheet and Financial Position

Unrestricted cash on hand was \$1.22 billion as of March 31, 2019, compared to \$1.05 billion as of December 31, 2018. The increase to cash resulted from cash generated from operations and the issuance of \$525 million of 0.75% convertible notes, partially offset by the repurchase for \$94.2 million of \$49.0 million par value of the Company's existing 1.50% convertible notes, and repayment of the revolving credit facility.

Total indebtedness was \$786.9 million as of March 31, 2019, compared to \$641.5 million as of December 31, 2018. The increase to debt was the result of the issuance of the new 0.75% convertible notes, offset by the partial repurchase of the existing 1.50% convertible notes and repayment of the revolving credit facility.

As disclosed in the Company's press release of March 18, 2019, the Company issued its notice of the redemption of the remaining \$352.5 million in par value of its 1.5% convertible bonds. The redemption is planned to be completed on May 28, 2019. The redemption will be completed by the payment of cash for \$352.5 million par value, together with the issuance of shares for the value which represents the market price of the convertible shares in excess of the conversion price. The dilutive effect of the shares to be issued has largely been included in the diluted share count at March 31, 2019.

Effective January 1, 2019, the Company adopted Accounting Standards Codification No. 842 ("ASC 842") to record operating leases on its consolidated balance sheet. As a result of the adoption of ASC 842, the Company reported \$351.2 million in net Right of Use Lease Assets with a similar amount recorded in Operating Lease Liabilities, both current and long-term. There was no impact on the consolidated statement of operations as a result of adopting ASC 842.

Guidance

The Company currently expects adjusted earnings per share for the second quarter 2019, assuming foreign currency exchange rates remain stable through the end of the quarter, to be approximately \$1.69.

Non-GAAP Measures

In addition to the results presented in accordance with U.S. GAAP, the Company presents non-GAAP financial measures, such as constant currency financial measures, adjusted EBITDA and adjusted earnings per share. These measures should be used in addition to, and not a substitute for, revenues, net income, operating income and earnings per share computed in accordance with U.S. GAAP. We believe that these non-GAAP measures provide useful information to investors regarding the Company's performance and overall results of operations. These non-GAAP measures are also an integral part of the Company's internal reporting and performance assessment for executives and senior management. The non-GAAP measures used by the Company may not be comparable to similarly titled non-GAAP measures used by other companies. The attached schedules provide a full reconciliation of these non-GAAP financial measures to their most directly comparable U.S. GAAP financial measure.

The Company does not provide a reconciliation of its forward-looking non-GAAP measures to GAAP due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for GAAP and the related GAAP to non-GAAP reconciliation, including adjustments that would be necessary for currency exchange rate fluctuations and other charges reflected in the Company's reconciliation of historic numbers, the amount of which, based on historical experience, could be significant.

(1) Constant currency financial measures are computed as if foreign currency exchange rates did not change from the prior period. This information is provided to illustrate the impact of changes in foreign currency exchange rates on the Company's results when compared to the prior period.

(2) Adjusted EBITDA is defined as net income excluding interest, income tax expense, depreciation, amortization, share-based compensation and other non-operating or non-recurring items that are considered expenses or income under U.S. GAAP. Adjusted EBITDA represents a performance measure and is not intended to represent a liquidity measure.

(3) Adjusted earnings per share is defined as diluted U.S. GAAP earnings per share excluding, to the extent incurred in the period, the tax-effected impacts of: a) foreign currency exchange gains or losses, b) goodwill and intangible asset impairment charges, c) gains or losses from the early retirement of debt, d) share-based compensation, e) acquired intangible asset amortization, f) non-cash interest expense, g) non-cash income tax expense, and h) other non-operating or non-recurring items. Adjusted earnings per share represents a performance measure and is not intended to represent a liquidity measure.
