

Euronet Worldwide, Inc., Adds Eight More Banks to Its ATM Shared Network in Spain

February 8, 2021

LEAWOOD, Kan., Feb. 08, 2021 (GLOBE NEWSWIRE) -- Euronet Worldwide, Inc. (NASDAQ: EFFT), a leading global electronic payments provider, today announced agreements for ATM network participation services in Spain with the following eight banks: Grupo Caja Rural / Banco Cooperativo, Grupo Cajamar, Bankinter, Eurocaja Rural, EVO Banco, Triodos Bank, Caixa Guissona, and Laboral Kutxa.

Under terms of Euronet's ATM Network Participation Program agreement, the company seamlessly integrates with each bank's system, allowing the banks' millions of cardholders to access Euronet's thousands of ATMs in Spain on its nationwide ATM network. By joining the program, banks significantly increase their ability to reach customers through Euronet ATMs located at convenient high traffic locations as well as ATMs located in rural areas through the company's ATMs for the Community initiative, which helps decrease "cash deserts" in the country.

Results from Euronet's ATM Network Participation Program

The latest agreements are an indication of Euronet's commitment to the strategy of shared independent ATM networks that focus on the expansion of the company's ATM network to benefit both banks and the consumers.

Euronet has ATMs in approximately 30 countries with more than 40 network participation agreements in place, providing banks increased customer touch points without the need for capital expenditure. In addition, the banks entrust the ATM operations to Euronet's globally recognized expertise that ensures efficiency, safety, and continuous investments and upgrades of the ATM estate. A bank's brand also is visible throughout the ATM network in the country with the additional possibility of adapting bank-designed flexible marketing campaigns.

Consumers benefit through easy, convenient access to their cash on a 24x7 basis across the country while also enjoying innovative cash services, such as cash deposits, multicurrency dispenses, contactless features, card-less cash transactions, money transfers and many more options that can further enhance the participating banks' offerings to their customers.

Euronet's REV® Payments Cloud enables payments modernization

With the ATM Network Participation program, Euronet offers a solution to numerous banks who are strategically reviewing their ATM networks for operational efficiencies while also investigating ways to expand product offerings to customers.

The program is part of Euronet's full scale ATM outsourcing services portfolio that covers the complete value chain of ATM operations, supported and centrally managed with the company's REV® Payments Cloud (REV) and its core processing platforms and infrastructure.

REV is part of Euronet's state of the art REN™ Ecosystem, which provides advanced payments processing and services with on-premise solutions or from a private cloud in Euronet's worldwide data centers. The REN Ecosystem encompasses the latest in payments innovations and provides gateways to fintech products and services, advancing the company to the forefront of our industry. Bridging the gap between digital and physical transactions, Euronet's omnichannel products and services and rapidly expanding alternative global payout capabilities provide unprecedented consumer choice.

Through the modular and API-driven architecture of REV, Euronet is in the position to quickly and seamlessly onboard banks in its ATM Network Participation Program, offering the highest security and availability standards. REV provides access to a solid infrastructure of payments solutions that enable banks to meet immediate needs with the flexibility to meet future growth. These services range from cash deposits to contactless and cardless transactions as well as digital product distribution from Euronet's extensive REN Ecosystem partners that are suitable and attractive for the mobile-first consumer.

"We are excited with the expansion of our ATM Network Participation services in Spain, and welcome all of our new partners to Euronet's Shared Network," said Nikos Fountas, Executive Vice President and Chief Executive Officer, Euronet Americas and EMEA EFT Processing Segment.

"The new agreements proves our strategy of being a catalyst of ATM consolidation in the countries we operate, to the benefits of our partner banks and their customers. Across Europe, we experience and drive a wave of ATM innovations, and we are confident that this trend will further accelerate.

We have the technology, the resources, the knowledge and a solid value proposition that places us in the forefront of payments innovation, combining the physical and the digital world of payments."
