

Oskar Selects Euronet ATM Recharge in the Czech Republic

PRAGUE and LEAWOOD, KANSAS — April 23, 2002 — Euronet Worldwide, Inc. (NASDAQ: EEFT), a leading provider of secure electronic financial transaction solutions, today announced a Euronet ATM Recharge agreement with Cesky Mobil a.s., a subsidiary of Canadian company Telesystem International Wireless (TIW), to deliver prepaid airtime in the Czech Republic. Cesky Mobil, which markets the OSKAR brand, is the third fastest growing mobile operator in Europe with more than one million customers since its launch in 1999.

Oskar users will enjoy the convenience of purchasing prepaid airtime and requesting payments for postpaid services at the Euronet-operated ATMs in the Czech Republic. By providing the payments through this electronic delivery channel, Cesky Mobil expands airtime distribution points for prepaid subscribers, while reducing its operating costs.

"Oskar is a company that wants to provide the ultimate customer service experience, while keeping ourselves competitive," said Mario Mele, Oskar Vice President of Business Planning and Service Development. "Since Euronet ATMs are very well located, ATM Recharge service enables us to expand on the most convenient payment methods."

Euronet ATM Recharge is one of multiple recharge options available from Euronet. Real-time recharge of airtime significantly reduces a mobile operator's costs and inventory associated with scratch card recharge methods. Euronet Recharge solutions have been deployed by both mobile operators and financial institutions in Europe, the Middle East and Asia, using touchpoints such as POS devices, ATMs and mobile phones. These comprehensive airtime recharge outsourcing solutions are processed through the Euronet Operating Center in Budapest, Hungary.

"Working with a fast-paced, technology- and customer-driven company like Oskar really benefits Euronet," said Daniel R. Henry, Euronet Worldwide President and COO. "Their enthusiasm for convenience and customer service invigorates the industry and the market."

About Euronet Worldwide

Euronet Worldwide is an industry leader in providing secure electronic financial transaction solutions. The company offers financial payment middleware, financial network gateways, outsourcing and consulting services to financial institutions and mobile operators. These solutions enable their customers to access personal financial information and perform secure financial transactions -- any time, any place. The company has processing centers located in the United States, Europe and Asia, and owns and operates the largest independent ATM network in Europe. With corporate headquarters in Leawood, Kansas, USA, and European headquarters in Budapest, Hungary, Euronet serves more than 200 clients in 60 countries.
