

Romania's Largest Mobile Operator and Largest Commercial Bank choose Euronet's ATM Recharge Solution

BUCHAREST, ROMANIA and LEAWOOD, KANSAS—June 3, 2002—Euronet Worldwide, Inc. (NASDAQ: EEFT), a leading provider of secure electronic financial transaction solutions, today announced a joint agreement with MobiFon (Connex) and Banca Comerciala Romana (BCR) to provide ATM Recharge Services for Romania's Connex prepaid airtime subscribers via the ATM network owned and operated by BCR.

Customers of Connex's prepay service are the first users in Romania to have an electronic method for adding airtime minutes to their mobile phone accounts. Euronet ATM Recharge enables Connex to distribute airtime 24 hours a day, 7 days a week at any one of 483 BCR-branded ATMs across Romania.

"Euronet's ATM Recharge solution will help us meet our strategic goals of enhancing customer convenience with prepaid airtime while we reduce internal costs," said Gabriela Matei, Director of Marketing for Connex. "Euronet's experience with secure payment solutions provides a great benefit, enabling Connex to bring diversified services to its customers."

This ATM Recharge agreement expands an existing mobile banking partnership among Romanian industry leaders. Connex is the country's largest mobile operator, with more than 2.1 million subscribers, and BCR is its largest bank, with 275 branches across the country and 3 million customers. BCR already enables Connex subscribers to access their bank accounts and receive financial messages via Euronet Mobile Banking.

"Euronet's ATM Recharge will expand our ATM transaction set, providing consumers with a convenient payment option, while generating additional revenue to BCR," said Mr. Ion Matei, BCR Card Director. "This service will allow BCR to provide supplemental value-added benefits to Connex subscribers. Additionally, we recently implemented Euronet's state-of-the-art ATM Bill Payment solution. We value Euronet as a strategic partner whose quick-to-market solutions will enable us to generate more high-margin transactions. Through its innovative products and services, Euronet enables BCR to differentiate itself in the Romanian market. These solutions will not only increase our transaction volumes, but will help BCR acquire additional market share and continue to consolidate its position as a market leader."

Euronet ATM Recharge is one of multiple recharge options available from Euronet. Both mobile operators and financial institutions in Europe, the Middle East, Asia Pacific and the Caribbean have deployed Euronet Recharge solutions on touchpoints such as POS devices, ATMs and mobile phones.

"We are pleased to deepen our relationship with BCR and MobiFon, industry leaders who appreciate the benefits of providing convenient access to secure electronic financial transactions," said Miro Bergman, Euronet Worldwide Executive Vice President and Managing Director of the EMEA region. "This prepaid airtime recharge service is a perfect complement to the Mobile Banking solution that Euronet implemented in Romania last September for BCR and Connex customers. We find tremendous potential in bringing together financial institutions and mobile operators to develop creative payment solutions around the world."

About Euronet Worldwide

Euronet Worldwide is an industry leader in providing secure electronic financial transaction solutions. The company offers financial payment middleware, financial network gateways, outsourcing and consulting services to financial institutions and mobile operators.
