

Euronet and Genpass to provide ATM prepaid wireless recharge services

LEAWOOD, KANSAS-March 5, 2003-Euronet Worldwide, Inc. (Nasdaq: EEFY), a leading electronic payments provider, today announced a PaySpot processing agreement with Genpass, Inc., one of the largest EFT processors in the U.S. Genpass will support PaySpot transactions through its ATM processing center and will actively market PaySpot services to its ATM clients, independent sales organizations (ISOs) and financial institutions.

Genpass drives more than 24,000 ATMs throughout the U.S. and processes over 360 million annual transactions, ranking nationally as the second largest network terminal driver and the sixth largest transaction switch. The company manages EFT services for over 1,000 clients.

"Genpass is positioned to quickly respond to requests from our clients for value-added services including products such as wireless recharge," said Gary Staub, Genpass, Inc. executive vice president and chief marketing officer. "We are pleased to add PaySpot as an additional revenue-generating opportunity to our clients-ATM owners, financial institutions and ISOs.

PaySpot is a U.S.-based recharge services program that enables consumers to purchase prepaid wireless airtime and long-distance calling plans from ATMs. Consumers can go to ATMs to recharge prepaid wireless accounts from all major wireless carriers including Verizon Wireless, AT&T Wireless, Cingular Wireless, T-Mobile and ALLTEL as well as approximately 25 other regional wireless carriers. Additionally, consumers can select from ten different prepaid long-distance calling plans for calls within the U.S., calls to Mexico and international calls.

"Prepaid mobile phone usage is growing globally and Euronet is at the forefront of providing electronic transactions worldwide, as well as in the U.S.," said Michael J. Brown, Euronet Worldwide chairman and CEO. "We are pleased to add Genpass to the growing number of processor and partner companies supporting PaySpot."
