

## **Hakrinbank NV Selects Euronet Internet Banking**

LEAWOOD, KANSAS—November 12, 2003—Euronet Worldwide, Inc. (Nasdaq: EFFT), a leading electronic payments provider, today announced an agreement with Hakrinbank NV to launch the first Internet Banking solution in Suriname.

Hakrinbank, based in Paramaribo, Suriname, will implement Euronet Internet Banking solution to further enhance their service offering for their 51,000 customers, including 17,000 cardholders. Euronet Internet Banking is a feature-rich, state-of-the-art browser-based product that enhances the customer experience, enabling customers to view account balances and history, transfer funds and perform bill payment transactions. The solution also has four layers of security using secure socket layer and industry standard firewalls. Euronet Internet Banking is compatible with a wide range of banking systems.

"To be successful in the banking business, we must always be one step ahead of our competitors in the bank services we offer our customers," said Harold S-K G. Liu Hung Chung, Hakrinbank assistant managing director. "The modern customer prefers a flexible schedule from their bank. Internet banking gives our customers that possibility to do their bank activities anywhere and anytime there is an Internet connection."

"Euronet Internet Banking is a mission critical tool for Hakrinbank to create a competitive edge and communicate with current customers as well as attract new ones," said James P. Jerome, Euronet Worldwide executive vice president and managing director – Software Division. "We are pleased that Hakrinbank chose to be a pioneer in Suriname by employing Euronet's cost-effective solution to meet the growing needs of their customers."

### **About Euronet Worldwide**

Euronet Worldwide is an industry leader in providing secure electronic financial transaction solutions. The company offers outsourcing and consulting services, integrated EFT software, network gateways, and electronic top-up services to financial institutions, mobile operators and retailers. These solutions enable our clients' customers to access personal financial information and to perform secure payment transactions-any time, any place. Euronet operates the largest independent pan-European ATM network, and is a leading provider of electronic distribution service, or top-up services, for prepaid mobile airtime. The company has processing centers located in the U.S., Europe and Asia, and processes electronic top-up transactions at more than 75,000 points of sale across 29,000 retailers in Europe, Australia and the U.S. With corporate headquarters in Leawood, Kansas, USA, and European headquarters in Budapest and London, Euronet serves clients in more than 60 countries.
